Mohd Shameem

+91 9198443992 | istakeahmad34@gmail.com | LinkedIn | GitHub

Summary

Results-driven Computer Science graduate with strong full-stack development expertise in the MERN stack. Proficient in JavaScript (ES6+), React.js, Node.js, MongoDB, and RESTful APIs. Experienced in building scalable, high-performance, and user-centric web applications. Eager to contribute to engineering teams that value performance optimization, clean code, and impactful product development.

Technical Skills

Languages: JavaScript (ES6+), Java
Frontend: React.js, Next.js, Tailwind CSS, Responsive Design, Cross-Browser Compatibility
Backend: Node.js, Express.js, RESTful APIs, JWT Authentication
Databases: MongoDB
State Management: Redux, Redux Toolkit, Context API
Tools & Platforms: Git, GitHub, VS Code, Postman, Supabase, OpenAI API, Figma
CS Fundamentals: Data Structures & Algorithms, Problem Solving (160+ LeetCode problems solved)

Experience

Frontend Developer Intern June 2025 – Dec 2025
Signature Infotech Pvt Ltd *Noida, India*

- Developed scalable web applications using React.js, improving component reusability and reducing page load time.
- Implemented Redux Toolkit for centralized, scalable state management across complex application flows.
- Integrated RESTful APIs to enable seamless client-server communication and real-time data rendering.
- Optimized application performance to enhance responsiveness and overall user experience.

Full-Stack Developer Intern Jan 2024 – June 2024
CETPA Pvt Ltd *Noida, India*

- Built and maintained responsive web applications using React.js and Node.js, ensuring cross-browser compatibility.
- Converted pixel-perfect Figma designs into production-ready UIs aligned with UX design guidelines.
- Developed reusable React components and integrated Redux for scalable state management.
- Connected frontend with RESTful APIs and contributed to backend development using Express.js and MongoDB.

Projects

Prepwise | *React.js, Node.js, Express.js, MongoDB, OpenAI API, Supabase*

- Built an AI-powered mock interview platform using the MERN stack with Supabase authentication.
- Integrated OpenAI API to dynamically generate role-based interview questions tailored to user input.
- Implemented real-time AI-driven feedback analysis on user responses, enhancing interview preparation quality.

Clothify — E-Commerce Platform | *MongoDB, Express.js, React.js, Node.js*

- Developed a full-stack clothing e-commerce application supporting product browsing, cart, and checkout flows.
- Built a feature-rich Admin Dashboard enabling management of products, categories, users, and orders.
- Implemented JWT-based authentication, secure routes, and RESTful API endpoints for all core operations.

Education

Dr. A.P.J. Abdul Kalam Technical University Lucknow, U.P.
Bachelor of Technology in Computer Science *2022 – 2026*

- CGPA: 7.5 / 10

Achievements

LeetCode: Solved 160+ algorithmic challenges in Java, covering arrays, trees, graphs, dynamic programming, and more.
