PROFESSIONAL SUMMARY

Recent B.Tech graduate in IT with detail-oriented Web Developer with strong proficiency in HTML, CSS, JavaScript, and Java programming. Skilled in building responsive websites and developing backend logic using Node.js and MongoDB. Passionate about creating user-friendly applications and eager to contribute to dynamic development teams

EDUCATION

- **Bachelor of Technology in IT -** Meerut Institute of Engineering and Technology **,** Meerut **2022-2026**
- **Intermediate -** Rais Ahmed Inter College, Itwa **2020-2022**
- **High School -** Rais Ahmed Inter College, Itwa **2018-2020**

SKILLS

- **Programming Languages:** JavaScript, Java
- **Frontend Technologies:** HTML, CSS,Java Script, React.js
- **Backend Technologies:** Node.js, Express.js, REST API
- **Frame Work**: Tailwind CSS , Bootstrap
- **Databases:** MySQL, MongoDB, Database Design
- **Tools & IDEs:** Git, GitHub, VS Code
- **Languages:** Hindi, English

PROJECTS

- **E-commerce Website**
  - I built a fully functional E-commerce website using React.js and Tailwind CSS, where users can browse products, add them to the cart, view product details, and proceed to checkout. I focused on building a clean UI/UX using Tailwind's utility classes, making it responsive for mobile and desktop screens. State management was handled through React hooks, and for larger state (like cart or user login), I used Redux (or context API). I also implemented routing
- **Weather App**

  Designed and developed a responsive weather application using HTML CSS and JavaScript that allows users to search for current weather information by city narne. Integrated OpenWeatherMap API to fetch real. ime data such as temperature, humidity, weather conditions, and wind speed, Implemented input validation, error handling, and dynamic Ul updates without page reload using DOM manipulation.
- **Online Book Store**

  Developed a full-stack Online Book Store application using the MongoDB, Express.js, React.js, Node.js with Tailwind CSS, featuring user authentication, shopping cart, checkout, and order management to simulate a real-world e-commerce platform.

CODING PROFILES
