PRINCE

Java Full Stack Developer

Noida, India

Phone: +91-8218407369

Email: princecseaiml@gmail.com

LinkedIn: https://www.linkedin.com/in/prince-2976242a4/

PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience in backend development using Java, Spring Boot, Hibernate, JDBC, and Servlets. Proficient in designing RESTful APIs, integrating MySQL databases, and developing scalable web applications using MVC architecture. Experienced in frontend technologies including HTML, CSS, JavaScript, and React. Strong problem-solving skills with experience solving 100+ data structure and algorithm problems.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript
Backend Technologies: Java, Spring Boot, Microservices, Web Services, Hibernate, JDBC, Servlets, JSP, Lombok
Frontend Technologies: HTML5, CSS3, JavaScript
Databases: MySQL
Tools: Git, Maven, Postman, Swagger, Docker (Basic)
Concepts OOP, Data Structures, Microservices, REST APIs, MVC Architecture, Exception Handling, Multithreading, Event-Driven Architecture (Kafka - Basic)
Methodologies: Agile, Scrum

PROFESSIONAL EXPERIENCE

Software Developer Intern | Aug 2025 – Feb 2026
CETPA Infotech Pvt. Ltd., Noida

- Developed and maintained Java-based web applications using Spring Boot, Hibernate (JPA), and MySQL, handling 500+ records efficiently.
- Designed and implemented RESTful APIs for CRUD operations using Spring Boot, improving system efficiency and reducing manual effort by 50%.
- Applied Spring Security basics for authentication and authorization in web applications.
- Built modular and scalable microservices-based components, improving application flexibility and maintainability.
- Optimized database queries and backend logic, enhancing application performance by ~35%.
- Followed MVC architecture and best coding practices for clean and maintainable code.
- Actively participated in Agile (Scrum) practices including sprint planning, daily standups, and reviews.

Project Engineer (Academic Role) Aug 2022 – May 2026
IMS Engineering College, Ghaziabad

- Developed backend modules for academic software projects using Core Java and JDBC.
- Designed relational database schemas and wrote optimized SQL queries.
- Applied object-oriented programming principles to improve code structure.
- Collaborated with team members for integration testing and debugging.

PROJECTS

Library Inventory and Circulation Management System
Technologies: Java, Hibernate, Servlets, JSP, JDBC, MySQL, REST API, JWT

- Developed a library management system supporting 100+ active users.

- Implemented JWT-based authentication and role-based authorization.
- Built REST APIs for book, user, and transaction management.
- Optimized database queries, reducing average API response time from 800ms to 200ms.
- Automated issue and return workflows, reducing manual effort by 60%.

Online Shopping Web Service System

Technologies: J a v a , Spring Boot, REST API , Hibernate, JDBC, MySQL, JavaScript

- Developed an online shopping web service supporting product browsing, cart management, and order processing for multiple users.
- Implemented RESTful APIs for product, user, and order management following MVC architecture.
- Integrated MySQL database using Hibernate/JPA for efficient data persistence and retrieval.
- Implemented authentication and validation to ensure secure user access and data integrity.
- Optimized backend operations and database queries to improve application performance and response time.
- Automated order placement and order history management to streamline the shopping workflow.

EDUCATION

Bachelor of Technology in Computer Science Engineering 2022 – 2026
IMS Engineering College, Ghaziabad
CGPA: 7.5 / 10

Senior Secondary (12th), Science Stream 2022
Percentage: 77.7%

Secondary (10th) 2020
Percentage: 74%

CERTIFICATIONS

Java Programming Certification
Academic Excellence Award (Top 5 Percent)

ADDITIONAL INFORMATION

• Solved 100+ problems on LeetCode and GeeksforGeeks, focusing on Data Structures, Algorithms, and problem-solving techniques.

Interest Areas: Backend Development, Java, Spring Boot, Microservices, REST APIs, Competitive Programming
