Professional Summary

Aspiring DevOps Engineer with hands-on experience in containerization, cloud infrastructure, and CI/CD automation. Proficient in Docker, AWS, Linux, and Nginx. Passionate about building scalable, reliable systems and eager to contribute to a high-performing DevOps team.

Technical Skills

Programming Languages: HTML5, CSS3, Python

Containerization & DevOps: Docker, Docker Compose, Kubernetes (Basics), Jenkins (Basics), CI/CD Pipelines (Basics)

Cloud Platforms: AWS (EC2, S3, VPC, Lambda, SNS, Security Groups, Internet Gateway, Route Tables)

Web Servers: Nginx (Reverse Proxy, Load Balancing)

Databases: MongoDB, MySQL

Version Control & OS: Git, GitHub | Linux (Ubuntu), Windows (PowerShell, CMD)

Projects

Online Pet Adoption Application — Dockerized Full-Stack Web Application

- Designed and developed a 3-tier web application for online pet adoption with multiple user roles (admin, adopter, shelter).
- Built frontend with React.js, backend with Node.js and Express.js, and used MongoDB as the database layer.
- Configured Nginx as a reverse proxy for API routing and load balancing across services.
- Deployed the application on 3 separate AWS EC2 instances using Docker containers for isolated, reproducible service deployment.
- Managed source code and collaboration using GitHub for version control.
- Implemented Docker Compose for multi-container orchestration, reducing deployment complexity and configuration time.

Training & Internship

DevOps Trainee & Intern | ResourceDekho

June 2025 – September 2025

- Completed comprehensive DevOps training covering Linux fundamentals, networking basics, and shell scripting.
- Gained hands-on experience with Docker essentials including containerization, image creation, and Docker Compose.
- Worked with AWS services including EC2 instance management, Security Groups, and VPC configuration.
- Built and configured CI/CD pipelines using Jenkins for automated build and deployment workflows.
- Configured Nginx as a web server and reverse proxy; worked with MongoDB for database management.

Education

Bachelor of Computer Applications (BCA) 2023 – 2026

Shobhit Institute of Engineering & Technology, Meerut

Class XII 2022

The Divine Public School, Dhawan, Bihar

Class X 2020

The Mahabodhi Tree Boarding School, Gaya, Bihar

Certifications

- **DevOps Training & Internship Certificate** — ResourceDekho (Linux, Networking, Docker, AWS, Jenkins, CI/CD, Nginx, MongoDB)
