PROFESSIONAL SUMMARY

B.Tech (CSE - Data Science) student with hands-on experience in Data Analytics, Python, SQL, Excel, Power BI, and data visualization. Skilled in data cleaning, exploratory data analysis (EDA), dashboard creation, and interpreting real-world datasets to generate actionable business insights.

WORK EXPERIENCE

Data Analyst Intern - Summer Internship Training Program 30/06/2025 – 26/07/2025
ABES Institute of Technology, Ghaziabad Ghaziabad, UP

- Worked on data analysis using Excel, SQL, and Tableau.
- Performed data extraction, cleaning, and transformation on structured datasets.
- Created dashboards and visual reports for data interpretation.
- Completed 60 hours of hands-on internship training.

EDUCATION

ABESIT Group of Institutions 2022 – 2026
B.Tech in Computer Science Engineering (Data Science) Ghaziabad, UP

SKILLS

Data Analytics: Data Cleaning, Exploratory Data Analysis (EDA), Statistical Analysis, Data Interpretation
Programming: Python (Pandas, NumPy, Matplotlib, Seaborn)
Databases: SQL (MySQL)
Visualization & Reporting: Power BI, Excel (Pivot Tables, Dashboards, Charts), Tableau
Web Technologies: HTML, CSS, Bootstrap, JavaScript

PROJECTS

Customer Churn Analysis

- Analyzed customer behavior data to identify factors affecting customer churn.
- Performed data cleaning, feature analysis, and exploratory data analysis (EDA).
- Built interactive Power BI dashboards to track churn rate, customer retention, and revenue impact.
- Generated actionable insights to improve customer retention strategies.
- **Tech Stack:** Python, SQL, Power BI

Sales & Profit Dashboard Analysis

- Analyzed sales datasets from multiple regions to identify top-performing products and revenue trends.
- Created KPI dashboards showing monthly sales, profit margins, and category-wise performance.
- Used SQL queries for data extraction and Excel for data preprocessing and reporting.
- Improved business decision-making through visual insights and trend analysis.
- **Tech Stack:** Power BI, Excel, SQL

E-commerce Data Analysis Project

- Performed analysis on e-commerce customer and order datasets to identify purchasing behavior and sales patterns.
- Cleaned and transformed raw data using Python and SQL.
- Generated reports on customer segmentation, product performance, and revenue growth.
- Applied data visualization techniques for business insights.
- **Tech Stack:** Python, SQL, Pandas, NumPy, Matplotlib

CERTIFICATIONS & PARTICIPATIONS

• Summer Internship Training – Data Analysis using Excel, SQL & Tableau (ABESIT, 60 Hours)
• Python (Zero to Hero) – GUVI
• Python Basic – HackerRank
