## PROFILE

Final-year Computer Science Engineering student with hands-on experience in full-stack development and AI-driven applications. Skilled in building scalable web platforms using the MERN stack, REST APIs, and modern frontend frameworks. Experienced in integrating AI tools to automate workflows and enhance user experience. Strong foundation in data structures, system design, and problem-solving, with a focus on building efficient, production-ready applications.

## EDUCATION

**Bachelor of Technology (Computer Science Engineering)** November 2022 – present
*JSS Academy of Technical Education, Noida*

**Intermediate** April 2020 – May 2021
*Dr. Virendra Swaroop Education Centre*

## PROJECTS

**NewsQuizzoc – AI-Powered News Analysis Platform**

- Built a full-stack news platform using the MERN stack to improve user engagement through AI-driven summaries and case studies.
- Implemented an automated news summarization pipeline, reducing manual reading effort by approximately 60%.
- Integrated Nodemailer for real-time email delivery of personalized news summaries.
- Designed asynchronous worker queues using Inngest to handle large-scale data processing efficiently.
- Developed a structured case study system to analyze the historical context of major news events.

**QuestSense – AI-Powered Travel Planning Platform**

- Developed an AI-based travel planning platform that generates personalized itineraries based on user preferences, including budget, vibe, and traveler profile.
- Built a natural language chatbot to extract user intent and automatically pre-fill booking details, reducing manual input by approximately 50%.
- Designed a dynamic pricing system to handle real-time margin and tax calculations across multiple services.
- Integrated third-party APIs, including OpenStreetMap (Nominatim) for geolocation and Razorpay for secure payment processing.
- Developed a responsive frontend using React.js, Tailwind CSS, and Vite, improving UI performance and load speed.

## SKILLS

**Technical Skills**

- **Languages:** Java, Python, JavaScript, HTML, CSS
- **Frontend:** Tailwind CSS
- **Backend:** Node.js, APIs
- **Database:** SQL, MongoDB
- **Tools:** Git, GitHub, VS Code, AntiGravity AI, Claude Code

## CERTIFICATES

- Claude Code in Action – Anthropic
- Google Data Analytics Fundamentals – Coursera
- Java Programming Certificate – LearnTube
