Education

Raj Kumar Goel Institute of Technology, Ghaziabad 2022-26
B.Tech in Computer Science and Engineering (Data Science) Percentage: 80.72%

Technical Skills

Languages: C, C++, JavaScript, TypeScript
Developer Tools: Git, GitHub, VS Code, Postman, GitHub Copilot
Technology / Frameworks: Node.js, Express.js, React, Next.js, MongoDB, Tailwind CSS, ShadCN, WebSockets
Areas of Interest: Competitive Programming , Data structures and Algorithms , Mern stack Web Development

Experience

Big oh tech **Feb-May 2026**

Costimizer Ai

What it does - Al-driven cloud cost optimization platform-helps teams analyze cloud spend and automate cost-saving by giving recommendations for different clouds.

Tech - React js, TypeScript, React Hook Form, TanStack, Node.js, GraphQL, Material-UI,MongoDB

- Collaborated on improving dashboard performance, component reusability, and user experience.
- Integrated **GraphQL** APIs to fetch and manage dynamic application data.
- Built reusable dashboard components and responsive UI using **React** and Material UI (**MUI**).
- Collaborated on **chatbot**-related features and UI improvements to enhance user interaction and support experience.

Personal Projects

EatExpress – Github - Live

Food Delivery Platform

- Built using **React, Node.js, Express.js, MongoDB, and Tailwind CSS**.
- Enabled **role-based** login for users, restaurant owners, and delivery partners.
- Implemented **real-time** order tracking, live delivery location, and food **recommendations**.
- Designed a **restaurant dashboard** and **delivery partner interface** to manage menu items, track orders, and calculate commissions.

ChatSphere- Github - Live

Real-time Chat Application

- Built using **Node.js, Express.js, Socket.IO, MongoDB, and React**.
- Implemented **real-time** one-to-one and group chat with typing indicators and **online status**.
- Added **secure** authentication, message encryption.
- Designed a **clean**, **responsive** chat UI with message status (sent, time).

Achievements

- **3-Star** on **CodeChef** (max rating **1782**) – **Institute rank 2**. (Link)
- **Specialist** on **Codeforces** (max rating **1436**) – **Institute rank 1** . (Link)
- **Smart India Hackathon (SIH) Finalist –** Qualified for the Grand Finale in 2025(**NTRO**), built innovative solutions for national-level challenges.
- **ICPC Regionalist –** Qualified for the prestigious **ICPC Amritapuri** Regionals.
- **Top 3% (Knight)** of global coders on LeetCode (max rating **1927**). (Link)
- Solved over **1200 DSA/CP** problems on platforms like GFG, CF and LeetCode. (Codolio Link)
- **1st Place – Intra-College** Competitive Programming Contest, ITS Engineering College.
- **1st Place – Coders Clash** (Problem-solving and coding competition)

POSITION OF RESPONSIBILITY

Member – ByteKarma Coding Society **Feb 2024 – Feb 2026**

– Participated in competitive programming discussions and problem-solving sessions.
– Contributed to **coding challenges, hackathons,** and **group coding sessions**, fostering a collaborative learning environment.
