SUMMARY

Aspiring Software Developer with hand-on experience in full-stack development using React.js, Node.js, MySQL. Skilled in Python with hands-on experience in analysing real-world data. Quick learner with a sharp eye for patterns, ready to turn data into impactful insights.

EDUCATION

Bachelor of Technology

Raj Kumar Goel Institute of Technology • Ghaziabad, (U.P) • 2026 • 6.39

Senior School

Army Public School • MHOW, (M.P) • 2022 • 7.26

SKILLS

HTML, CSS, JavaScript, Python, Java, C, ReactJS, Spring boot

Graphic Design, UI/UX

PROJECT

Carbon Footprint Tracker

RKGIT, Ghaziabad • October 2025 - April 2026

- Tech Stack: HTML, CSS, React.js, Node.js, MongoDB, AWS, REST APIs.
- A software application that calculates and monitors carbon emissions generated by human activities using digital data and emission standards. It helps users understand their environmental impact and supports sustainable lifestyle and business decisions.

Job Portal System

RKGIT, Ghaziabad • December 2024 - April 2025

- Tech Stack: HTML, CSS, Bootstrap, JavaScript, PHP, MySQL.
- The Job Portal System, designed to run seamlessly on Windows, Mac, and Linux operating systems, providing equal access to users regardless of their platform choice.
- This system aims to improve the efficiency of the job search and recruitment process.
- It allows job seekers to find relevant job opportunities quickly and easily, while also offering employers the tools they need to post job openings, review applications, and manage the hiring process.

Prescripto- A Doctor Appointment System

July 2025 - August 2025

- Tech Stack: HTML5, CSS3, JavaScript, Bootstrap, React.js, Node.js and Express.js.
- The main objective of this project, Prescripto – A Doctor Appointment System, is to design and develop a secure, efficient, and user-friendly web application that simplifies the process of booking and managing doctor appointments.
- The system aims to eliminate the limitations of traditional, manual scheduling methods by providing an automated digital platform that connects patients, doctors, and hospital administrators on a single interface.
