Dharmendra Pratap Chauhan

dharmendrachauhan18059@gmail.com | 9336950514 | Ghaziabad | Linkedln | Leetcode

Summary

Aspiring Software Developer with strong foundations in Data Structures & Algorithms and proficiency in C++. Skilled in problem-solving, optimizing code performance, and building efficient solutions. Experienced in data analysis, visualization, and extracting insights from datasets. Passionate about developing scalable software and continuously improving technical expertise

Skills

- **Data structures**
- **LANGUAGES- C++, Python**
- **FRONT END- Html,Css**
- **BACKEND- MongoDB, SQl**

Projects

1. Record management System

Built a menu-driven Student Record Management System in C++ utilizing Data Structures, OOP principles, and file handling. Implemented CRUD operations, searching, and sorting algorithms to manage student data efficiently. Focused on modular programming, performance optimization, and structured data storage

2. Banking System Simulation

Engineered a console-based Banking System Simulation in C++ leveraging Object-Oriented Programming (OOP) concepts.Implemented core banking operations such as account creation, authentication, balance inquiry, cash deposit, withdrawal, and transaction management using efficient data structures and function abstraction.

Certifications

Completed Programming in python in coursera.

Product management with Agentic AI from iit patna with masai school.

Education

Raj Kumar goel institute of technology and management — B.tech Computer Science • 7.5 Cgpa
Abdul Kalam Technical University — Ghaziabad • 2022-2026

Rani laxmi bai memorial school — 12th • 78%
CBSE — Lucknow

Rani laxmi bai memorial school — 10th • 82%
