Education

•Raj Kumar Goel Institute of Technology , Ghaziabad *2022-26*

Bachelor of Technology in Computer Science and Engineering(Data Science) SGPA:7.1

Technical Skills and Interests

Languages and Packages: Python, Numpy, Pandas, Matplotlib, Seaborn, SQL
Data Visualization: Microsoft PowerBi, Microsoft Excel
Statistical Analysis: Descriptive Statistics,Inferential Statistics.
Database: Relational database(My SQL)
Tools: PowerBi, MYSQL, Pycharm, Jupyter Notebook
Area Of Interest: Data analytics, Data Visualization
Relevant Coursework: Data Structures and Algorithms, Operating Systems, Object Oriented Programming, Database Management System, Software Engineering

Internship

•Data analyst *July 2025 - September 2025*

ESC Onsite

- Cleaned, organized, and formatted large sets of raw data by removing errors, duplicates, and missing values to make the information more accurate, consistent, and ready for analysis.
- Collected, extracted, and compiled useful information from different websites through web scraping techniques, ensuring the data was properly gathered, structured, and stored for further use.
- Processed, transformed, and prepared cleaned datasets into clear and structured formats, making them suitable for detailed analysis, reporting, and supporting different business or project requirements.

•ESG Sustainability Analyst *September 2025 - December 2025*

Carbon Crunch Hybrid

- Analyzed ESG and sustainability data to generate insights for decision-making and client reporting.
- Assisted in building dashboards for GHG emissions, and ESG performance tracking using Excel and data-analysis tools.
- Supported data collection and verification for ESG disclosures and contributed to Net Zero strategy assessments.

Project

•Olympics Data Analysis Report

Analyzed Olympic data from Kaggle to study gender participation, medal counts, sports, and athletes. Designed charts and graphs including line charts for participation trends, donut charts for medal distribution, and tables for country-wise medal totals. Highlighted top athletes and categorized their medals, providing a clear view of overall Olympic performance.

Pizza Sales Report

Created a sales analysis dashboard using SQL and Power BI to explore pizza sales performance. Cleaned and organized raw data, then built charts such as line graphs, bar charts, and pie charts to track revenue, orders, and category performance. Designed KPI visuals to identify best-selling items and overall sales trends for better decision-making.

Certificate

- Data Engineering and Visualization - HCLTech .
- Introduction to Data Science in Python - Coursera.
