Professional Summary

Full Stack Developer with practical experience in backend and full-stack web development using Laravel, React.js, Node.js, MongoDB, MySQL, and Bootstrap. Skilled in developing scalable web applications, REST APIs, authentication systems, database management, and responsive user interfaces. Passionate about building efficient, secure, and user-friendly applications to solve real-world business problems.

Education

RKGIT Ghaziabad — Ghaziabad, India
B.Tech in CSE (AI & ML) — CGPA: 6.5 — *2022 – 2026*

TRM Public School — India
Class XII (CBSE) — Percentage: 73% — *2021*

TRM Public School — India
Class X (CBSE) — Percentage: 68% — *2019*

Experience

UFLEX LIMITED — Noida, India
Backend Developer Intern — *Apr 2026 – Present*

- Developing and maintaining e-commerce web applications using Laravel, PHP, MySQL, and Bootstrap.
- Designed backend modules for product management, order handling, authentication, and payment workflows.
- Created and optimized MySQL database schemas, APIs, and queries for improved performance.
- Collaborated with frontend developers to integrate responsive UI components with backend services.
- Worked on debugging, testing, scalability improvements, and application security optimization.

Enigma Exhibitions Pvt. Ltd. — Noida, India
Full Stack Development Intern — *Sep 2025 – Mar 2026*

- Worked on ERP web applications and reporting systems under senior developers and analysts.
- Developed responsive web pages using HTML, CSS, Tailwind CSS, JavaScript, PHP, and Laravel.
- Performed data validation, reporting, and database operations using MySQL and Excel.
- Collaborated with teams to improve ERP workflows and optimize user experience.
- Used Git and GitHub for version control and project collaboration.

Projects

3MLaunch Business Website | *Laravel, PHP, JavaScript, Tailwind CSS, MySQL*

- Designed and developed modules for services, blogs, customer engagement, and contact management.
- Built responsive and modern UI components to showcase branding and product strategies.
- Implemented backend functionality and integrated MySQL database for dynamic content management.
- Enhanced user interaction through optimized frontend layouts and smooth navigation.

TaskFlow - MERN Productivity Platform | *MongoDB, Express.js, React.js, Node.js*

- Developed a full-stack productivity and task management platform using the MERN stack.
- Implemented JWT-based authentication, protected routes, and role-based user access.
- Built RESTful APIs and integrated MongoDB for real-time task and project management.
- Designed responsive dashboards with React.js for task tracking, deadlines, and progress monitoring.
- Optimized frontend performance using React Hooks and reusable component architecture.

Technical Skills

Languages: C/C++, Java, Python, JavaScript, TypeScript, SQL, PHP
Frameworks & Libraries: React.js, Node.js, Express.js, Laravel, Tailwind CSS, Bootstrap, Redux Toolkit, MERN Stack
Databases: MySQL, MongoDB
Developer Tools: Git, GitHub, Postman, VS Code, Figma, Webpack, Vite, MS Excel, MS Office Suite
Web Technologies: REST APIs, JWT Authentication, API Integration, Responsive Web Design, CRUD Operations
Core Subjects: Data Structures & Algorithms, OOPs, DBMS, Operating Systems, Computer Networks
Areas of Interest: Full Stack Development, Backend Development, Web Development

Certifications

Completed 6-Month Full Stack Development (Java) Course from Ducat India
Certifications in Java, Power BI, DBMS, Excel, SQL, and Web Development

Leadership & Activities

Core Team Member at Enigma Exhibition and actively conducted technical events and coding rounds.
Led project presentations and successfully managed team collaboration activities.
