Education

Swami Harsewanand Public School, Sonebhadra — **2019 – 2020**
Secondary Education — *CGPA: 8.9*

Sant Antulanand Convent School, Varanasi — **2020 – 2022**
Senior Secondary Education — *CGPA: 8.0*

Raj Kumar Goel Institute of Technology, Ghaziabad — **2022 – 2026**
B.Tech in Computer Science and Engineering — *CGPA: 7.5*

Experience

Next24Tech — Python Intern — **Sep 2024 – Oct 2024**
Remote

- Gained hands-on experience in Python programming and GUI development.
- Built a chatbot using Python, which helped me explore various Python libraries.
- Completed a final project involving the development of a GUI application capable of extracting song lyrics using Python, integrating APIs and web-scraping techniques.
- Technologies used: Python, Tkinter, Requests, Beautiful Soup, APIs, JSON handling, Web Scraping tools.

Freelancing — Web Developer — **Apr 2025 – Aug 2025**
Remote

- Developed an admin panel for a lead-generation system to enable efficient status tracking.
- Focused on creating a clean UI, smooth navigation, and seamless integration between user and admin interfaces.
- Technologies used: Python, Django, HTML, CSS, JavaScript.

Projects

Comment Sentiment Analysis Web App

- Developed a web application that classifies user comments as positive, negative, or neutral.
- Integrated AI-based response generation and highlighted comments requiring attention.
- Implemented text-to-speech functionality for AI-generated responses to enhance accessibility.
- Technologies Used: Python, Machine Learning, Web Development, NLP.

Voice Assistant Using Python Libraries

- Developed a custom voice assistant in Python enabling hands-free interaction through voice commands.
- Integrated speech recognition, natural language processing (NLP), and text-to-speech (TTS) libraries for seamless input and output.
- Implemented features like query answering, information retrieval, and command execution for an interactive user experience.
- Technologies used: Python, Speech Recognition, Pyttsx3, NLP tools, APIs.

Achievements & Responsibilities

- **Hack-It-Out 2025 (IIT BHU) — 4th Place**: Led a 3-member team to build an AI-powered sentiment analysis platform with automated responses and accessibility features, demonstrating strong technical execution and leadership.
- **Runner-Up — College Coding Competition**: Redesigned the event website with a cleaner UI, improving navigation, accessibility, and overall user experience.
- **Event Coordinator & Team Mentor**: Guided junior teams, managed end-to-end event planning, documentation, and ensured smooth execution of departmental activities.
- **Volunteer Educator**: Taught English, Mathematics, and General Knowledge to underprivileged children, contributing to community development and educational upliftment.

Skills

Programming: Python, HTML, CSS, Javascript, java, Dart
Core CS: OOPs, DBMS, Data Structures and Algorithms, Computer Networks
Frameworks: Django, Tkinter, Flutter
Databases: SQL
Tools: Git, GitHub, Figma, Canva
