EDUCATION

Raj Kumar Goel Institute of Technology, Ghaziabad, UP **2022 – 2026**
B.Tech in Computer Science and Engineering (AI & ML)

Krishna Vidhya Niketan School (CBSE), Muradnagar, Ghaziabad, UP **2022**
Senior Secondary Education

Mount Carmel School (ICSE), Muradnagar, Ghaziabad, UP **2020**
Secondary Education

TECHNICAL SKILLS

- **Programming Languages:** Java,Python
- **Web Development:** HTML, CSS, JavaScript, React.js, Node.js, Express.js, REST APIs
- **Databases:** MongoDB, SQL
- **Frameworks & Libraries:** Tailwind CSS, Bootstrap, Socket.io
- **Tools & Platforms:** GitHub, VS Code, Power BI
- **Computer Science Fundamentals:** DBMS, Computer Network, Operating System

EXPERIENCE

QMANSYS INFOSOLUTIONS LLP **July 2025 – October 2025**
Python, Machine Learning (Scikit-learn), Streamlit, Data Analysis & Preprocessing [Github Link]

- Worked on an AI Assistant for Farmers project involving dataset collection, ML model development, performance optimization, and GUI integration.
- Conducted research analysis and contributed to testing and product deployment.

PROJECTS

Online Stock Prediction [GitHub Link]
JavaScript, MongoDB, React, SQL

- Built a Zerodha-inspired stock trading application with live market data and portfolio tracking.
- Implemented user authentication and order-flow logic using modern web technologies.

Video Conferencing App [GitHub Link]
MERN Stack, Socket.io, WebRTC

- Built a Zoom-like web application supporting real-time video/audio conferencing, multiple participants, chat, and screen sharing using MERN stack, Socket.io, and WebRTC.

Wonderlust [GitHub Link]
Node.js, Express, MongoDB, and EJS

- Developed a full-stack travel listings platform with secure user authentication.
- Implemented CRUD operations, image uploads via Cloudinary, dynamic rendering of listings, and RESTful routing.

Heart Disease Prediction [GitHub Link]
ANN (TensorFlow/Keras), Flask API, Python, Scikit-Learn

- Developed a full-stack Heart Disease Prediction System using an ANN (TensorFlow/Keras) and a Flask API to provide real-time clinical risk assessments.
- Engineered a robust data pipeline with Scikit-Learn for normalization and implemented automated verification scripts to ensure model integrity and seamless deployment.

CERTIFICATIONS

- **Oracle Fusion Cloud Certification** – Oracle [Link]
- **Computer Society of India** – CSI [Link]

POSITIONS OF RESPONSIBILITY

Volunteer, Computer Society of India (CSI) [Link]

- Assisted in planning and managing events, engaging students, and providing technical support, showcasing initiative and collaborative skills.
