## EDUCATION

**Raj Kumar Goel Institute Of Technology** **09 2022 – 06 2026**
*B.Tech (CSE-DS) -* ***CGPA - 8.3*** *Ghaziabad,India*

**Urmila Educational Academy** **03 2021 – 02 2022**
*Senior Secondary -* ***Percentage - 66*** *Basti, India*

**Urmila Educational Academy** **03 2019 – 03 2020**
*Secondary -* ***Percentage - 81*** *Basti, India*

## COURSEWORK / SKILLS

- Data Structures & Algorithms
- Operating Systems
- Data Science
- Database Management System (DBMS)
- OOPS Concept

## PROJECTS

### Fake News Detection System using Machine Learning

- Collected and preprocessed news article data by performing text cleaning, tokenization, stop-word removal, and TF- IDF feature extraction. Applied supervised machine learning algorithms to classify news articles as fake or real, and evaluated model performance using accuracy and confusion matrix. Analyzed results to improve classification reliability and demonstrate the practical use of machine learning and natural language processing techniques .

### Trend Sales Analysis Dashboard using Power BI

- Collected and transformed sales data using Power Query to handle missing values, data cleaning, and formatting. Designed interactive Power BI dashboards with KPIs, charts, slicers, and filters to analyze sales trends, regional performance, and product-wise growth. Generated actionable insights to support data-driven decision-making by identifying seasonal patterns and high.

### Library Management System using PHP, MySQL, HTML, CSS

- Developed a web-based Library Management System to efficiently manage library operations such as book records, member details, and transactions. Implemented features for adding, updating, and deleting books and members, along with issue and return functionalities.

## INTERNSHIP

**Data Analyst Intern — Cognifyz Technologies** **06 2025 – 07 2025**
*Ghaziabad, India*

Built 5 dashboards in Power BI to track sales trends and KPIs while validating performance and insights. Optimized Python-based workflows to improve data preprocessing efficiency and accuracy for a major sales project. Awarded Best Performer status out of 700+ interns for strong performance and a data-driven approach to problem-solving .

## TECHNICAL SKILLS

**Languages:** Python, C, HTML, CSS, JavaScript, SQL**Developer Tools:** VS Code, Power BI, Excel
**Technologies/Frameworks:** Linux, GitHub, ReactJS, NodeJSOther: Machine Learning, Statistics, Canva, Pandas, Matplotlib

## EXTRACURRICULAR

### Pushpak Club Member-Participated in drone development as part of Pushpak Club

- Represented the club at IIT Roorkee. Led a student team in the competition and contributed to drone system design and development .

## ACHIEVEMENTS

- TATA Data Visualisation: Empowering Business with Effective Insights
- Programming in Python by Meta.
- Data Science for Engineers from NPTEL
- Data Science in Python from University of Michigan
