SUMMARY

Information Security Consultant with experience of three years in penetration testing, vulnerability assessment, vulnerability management and blue teaming. Skilled in identifying and mitigating security risks, conducting Active Directory pentesting, physical penetration testing, WIFI pentesting, API pentesting, mobile security and web pentesting. Proficient in security event analysis as well as incident response.

EDUCATION

B.E CSE with Honors in Information Security in Association with IBM **-** Chandigarh University
7.32 GPA (August 2015 - May 2019)

CERTIFICATIONS

- Offensive Security Certified Professional (OSCP)
- eLearnSecurity Junior Penetration Tester (eJPT)
- CompTIA Security +
- QRadar Cloud & QRadar Advisor with Watson

EXPERIENCE

QSEAP Infotech Pvt Ltd., Mumbai (Jan 2025 – Oct 2025)

Senior Information Security Consultant

- Conducted physical, external and internal penetration test as part of red team activities.
- Conducted WIFI penetration testing with black box and grey box approach.
- Experienced in Active Directory penetration testing, API pentesting, mobile security and identifying web vulnerabilities with expertise in assessing security risks and implementing protective measures.
- Conducted and managed daily, weekly and quarterly vulnerability scans using Breach and Attack Simulation (BAS) tools such as Cymulate.
- Conducted Email gateway testing as well as DHCP and DNS testing.
- Prepared detailed assessment reports, outlining findings and suggested remediation strategies.
- Documented and presented findings to both technical and non-technical stakeholders, delivering insights on mitigation strategies and risk reduction prioritising them according to the threat level.

SISA Information Security Pvt Ltd., Bengaluru (Apr 2021 - Sept 2021)

Associate Consultant

- Engaged in a variety of security testing assessments such as network testing (internal and external), vulnerability assessment, segmentation testing, etc.
- Provided continued customer support by having meetings with the client before, after as well as during the pen-testing exercise for smooth execution of the process.
- Prepared detailed reports as per the given report format.
- Ensured timely delivery of status updates and final report to clients.

IBM India Pvt Ltd., Bengaluru (Aug 2019 - Mar 2021)

Security Analyst

- Reviewed security events that are populated in a Security Information and Event Management (SIEM) system.
- Raised tickets based on suspicious security incidents so that they can be action-ed upon by the relevant remedy team.
- Analysed and remediated email-based threats by identifying malicious tactics, techniques and procedures used by threat actors to gain access.
- Conducted proactive threat research leveraging emerging threat intelligence (IOCs, updated rules, etc.) to identify affected systems and the scope of the attack.
- Performed incident response activities and ensured that proper protection or creative measures have been taken when an incident has been discovered.

TECHNICAL SKILLS

- Web Application - Burp Suite, SQLmap, Nikto, Dirbuster, Ffuf
- Vulnerability Scanners - Qualys Guard, Nessus
- Mobile Security – MobSF, jadx, apktool, Frida, objection, Xposed/LSPosed, Android Studio, Xcode
- SIEM – IBM QRadar
- Incident Response Tool – Resilient
- Exploitation framework - Metasploit
- Networking - Nmap, NmapAutomator, Autorecon, Chisel, Ligolo-ng, netexec, trevorspray
- BAS - Cymulate
- Phishing Analysis
