Aditi Pandey

Email: csaditi04@gmail.com | Phone: +91 9670192168

Objective

To pursue a position in data science or machine learning that allows me to apply my Python skills in data analysis, visualization, and model building.

Education

B.Tech in Computer Science and Engineering
Raj Kumar Goel Institute of Technology, Ghaziabad
Expected Graduation: June 2026
Current Year: 4th year
Current Percentage: 82.44%

Technical Skills

- **Programming Languages:** Python
- **Web Development:** HTML, CSS, JavaScript (Basic)
- **Database:** SQL
- **Machine Learning:**(Basic)
- **Tools/Libraries:** OpenCV, face_recognition

Projects

1.Automated File Organizer

- Developed in Python
- Develop a Python script that scans a specified directory, identifies files by their extensions (e.g., .py, .txt, .jpg), and automatically organizes them into categorized folders (e.g., "Documents", "Images", "Code").

2.Face Recognition Attendance System

- Developed in Python using OpenCV and face_recognition libraries.
- Detects faces from webcam feed or images automatically.
- Useful for attendance systems or access control.
- Implemented basic database connectivity for storing and retrieving facial data.

3.Blood Gaze: Blood group detection using eye scanning

- Developed in python
- Detects the Blood Group of a Person

Coding Platforms

- LeetCode
- GeeksforGeeks
- CodeChef
- HackerRank

Certifications

- Coursera Certificate
- NPTEL Certification
- Mastering Generative AI and ChatGPT certification
- Full Stack Developer Bootcamp - Master Frontend to Backend
- International Conference on Green Technologies and Sustainable solutions(GTSS 2026)(IEEE)

Strengths

- Fast learner and self-motivated
- Team player with a positive attitude
- Eager to gain practical experience in web technologies and data applications
