Summary

Dedicated and highly motivated Computer Science (AI/ML) student seeking an entry-level role in technology where I can leverage my academic foundation and practical skills. Proficient in Machine Learning, Artificial Intelligence, and Python, with a solid understanding of fundamental programming concepts and data structures. Eager to contribute to innovative projects, solve complex challenges, and quickly learn new technologies in a dynamic professional environment.

Education

Raj Kumar Goel Institute of Technology, Ghaziabad **2022–2026**
B.Tech - Computer Science and Engineering (AI ML) Ghaziabad, Uttar Pradesh

Ingraham Inter College(State Board), Ghaziabad **2022**
Senior Secondary Education Ghaziabad, Uttar Pradesh

Ingraham Inter College(State Board), Ghaziabad **2020**
Ghaziabad, Uttar Pradesh Secondary Education

Technical Skills

Languages:-
C, Python, Java, HTML, CSS, SQL

Frameworks & Libraries:-
Pandas, NumPy, TensorFlow, OpenCV, Matplotlib

Tools:-
Visual Studio Code, AWS, Jupyter Notebook, Google Colab, Git Bash, Excel

Other Skills:-
Problem Solving, Communication Skills

Projects

CREDIT_CARD_FRAUD
Developed a Machine Learning classification model in Python to detect fraudulent transactions in real-time. Successfully handled imbalanced datasets using advanced sampling/weighting techniques to optimize model performance.
Github Link

CUSTOMER_CHURN_PREDICTION
Designed and implemented a predictive model using Python and classification algorithms to identify customers highly likely to churn. Conducted extensive Exploratory Data Analysis (EDA) and feature engineering to identify key drivers of customer attrition.
Github Link

SPAM_SMS_DETECTION
Developed an NLP-based classification model using Python (Naive Bayes or Logistic Regression) to filter spam from legitimate SMS messages. Implemented essential text preprocessing techniques, including tokenization, stop-word removal, and vectorization (TF-IDF). Achieved a high classification Accuracy (over 98%) and optimized the system for high efficiency in real-time message filtering.
