RAJNEESH KUMAR

Software Engineer (Fresher) | Junior Software Developer

rajneeshbsp2002@gmail.com 9368631713 Bareilly, India

https://www.linkedin.com/in/rajneesh-kumar-220907289 github.com/rajneesh-kumar-20

PROFILE

- Enthusiastic and detail-oriented B.Tech student in Computer Detail-oriented and motivated B.Tech Computer Scienceoundation in sofull×Engineering student with a strong ftware development, data structures, and algorithms. Skilled in fstack web development using the MERN stack (MongoDB, Express.js, React.js, Node.js). Adept at building scalable, user×friendly applications and collaborating in agile environments. Passionate about clean code, problem-solving, andcontinuous learning in modern software engineering.

EDUCATION

Btech | Computer Science & Engineering 07/2023 – 07/2026
Raj Kumar Goel Institute of Technology Ghaziabad

Diploma| Computer Science & Engineering 07/2020 – 07/2023
Govt. Polytechnic Roorkee Baheri Bareilly

SKILLS

Programming language: Java, JavaScript, SQL

Frameworks & Libraries: React.js, Node.js, Express.js, Bootstrap, Tailwind CSS

Databases: MongoDB, MySQL

Developer Tools: VS Code, Hoppscotch, Git, GitHub, MongoDB Atlas,

PROJECTS

Zerodha Clone
Full Stack Trading Web Application
- Developed a scalable trading platform enabling users to register, log in, view live stock prices, and place buy/sell orders.
- Implemented user authentication, portfolio tracking, and transaction history.
- Built a responsive and interactive React.js front-end with a Node.js + Express backend.
- Used MongoDB Atlas for data management and JWT-Based authentication for secure access.

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Bootstrap.

Resume Maker
Front-End Resume Builder App
- Created a web application that helps users design and download professional resumes easily.or resume creation.
- Implemented customizable templates and form-driven inputs.
- Focused on responsive design and user experience optimization.Tech Stack: React.js, HTML, CSS, JavaScript.

Wanderlust
Full Stack Travel Hosting Platform
- Built a platform for travelers to book unique stays (treehouses, houseboats, etc.) and for hosts to list their spaces.
- Designed a MVC-structured backend with CRUD operations for listings and bookings.
- Integrated user authentication and MongoDB database for data persistence.
- **Tech Stack:** Node.js, Express.js, MongoDB, HTML, CSS, JavaScript

CERTIFICATES

Full Stack Web Development
Apna College

Data Structures and Algorithm with Java
Apna College

Full Stack Web Development
Softpro India Pvt. Ltd. Lucknow
