Summary

Software Engineer with hands-on experience building scalable full-stack applications using Java, .NET (C#), JavaScript, React.js, Next.js, Node.js, and MongoDB. Skilled in designing RESTful APIs, developing secure backend systems, frontend and delivering production-ready features. Currently exploring Generative AI with hands-on exposure to LLMs, RAG, MCP and prompt engineering, along with building RESTful APIs and integrating AI services such as OpenAI APIs.

Work Experience

Intern - Software Engineer Jan 2026 - Mar 2026
Data Nova India
- Developed modules of an **ERP system** using C#, ASP.NET Core, and SQL Server to support business operations.
- Automated manual workflows in the Support Portal, improving operational efficiency and reducing turnaround time.
- Implemented backend logic, database queries, and API integrations to ensure seamless data flow across ERP modules.

Software Developer Intern July 2025 – Oct 2025
CDAC India
- Developed modules using **Spring Boot (Java)** and **Angular** in an **Agile environment**.
- Integrated secure **RESTful services** for online payments and automated certificate generation.
- Managed project dependencies with **Maven** and stored application data in **MongoDB**.
- Improved system scalability and user experience through optimized backend design and testing.

Projects

Real-time Collaborative Workspace Live — Code
Tech Stack: Next.js, Firebase, Google Gemini AI, Tailwind CSS, ShadCN UI
- Built a real-time collaborative workspace inspired by Microsoft Loop using Next.js and Firebase.
- Integrated Clerk for secure authentication and Liveblocks for seamless multi-user collaboration.
- Added an AI-powered project idea generator using Google Gemini API to enhance user creativity.
- Designed and deployed a responsive, modular UI using Tailwind CSS and ShadCN components.

DFV - Online Food Ordering Platform Live — Code
Tech Stack: Next.js, React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Cloudinary, JWT
- Built a full-stack food delivery web app enabling users to browse, add to cart, and place orders.
- Integrated secure user authentication and admin dashboard for managing items, offers, and orders.
- Implemented file uploads using Multer and Cloudinary with category-based filtering and pagination.

Skills

Programming Languages	Java, JavaScript, Python, C#
Backend Technologies	Node.js, Express.js, RESTful APIs, ASP Dot NET, JWT Authentication
Frontend Technologies	React.js, Next.js, HTML, CSS, Tailwind CSS, Bootstrap
Database & Cloud	MongoDB, MySql, Cloud Computing (AWS Basic), Distributed System Concepts
Developer Tools	Docker, Jenkins, Git, GitHub, VS Code, Postman, AntiGravity,
Core CS Skills	Data Structure & Algorithms, System Design(LLD), SOLID Principles, OOPS, DBMS, Problem Solving, Debugging, CI/CD pipelines
Competitive Programming Profiles	LeetCode (1700+ Rating) | CodeChef (1450+ Rating) | HackerRank (5⋆)

Education

Year	Qualification	Institution	GPA/Percentage
2022 – 2026	B.Tech in CSE	Dr. A. P. J. Abdul Kalam Technical University	(Agg.) 8.6/10
2021	Intermediate (12th)	Abhinav Vidyalaya, Terhi, Azamgarh	76.6%
2019	High School (10th)	Abhinav Vidyalaya, Terhi, Azamgarh	91.8%

Certifications

Java Programming: Arrays, Lists, and Structured Data	Certificate Link
The Full Stack by Meta	Certificate Link
Programming in Python by Meta	Certificate Link

Achievements

- Authored a Research paper on Face Anti spoofing Using Deep Reinforcement Learning (IEEE).
- Secured an **All India Rank 1742** in the **Young Turks Coding Contest** organized by **Naukri.com** — link.
- Achieved a cumulative **CGPA of 8.6** (till 7th semester) in B.Tech (Computer Science and Engineering).
- Scored **91.8% in Class 10th**, attaining the **highest score in school**.
