Aman Gupta

Backend / MERN Stack Developer (Fresher)
Ghaziabad, Uttar Pradesh
+91-8935945056 — aman998015@gmail.com — LinkedIn — GitHub

Professional Summary

Backend-focused full stack developer with hands-on experience in the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in RESTful API development, authentication mechanisms, and database management using SQL and MongoDB. Strong foundation in data structures, algorithms, and problem solving, with practical exposure to scalable web application architecture.

Education

Raj Kumar Goel Institute of Technology, Ghaziabad 2022–2026
Bachelor of Technology in Computer Science Engineering (Data Science)

Shakti S Academy, Saran, Bihar 2020–2021
Class XII (Science)

Technical Skills

MERN Stack: MongoDB, Express.js, React.js, Node.js

Backend Development: RESTful APIs, JWT authentication, middleware, server-side architecture

Database Systems: MongoDB (schema design, indexing), SQL, MySQL (joins, query optimization)

Programming Languages: Java, JavaScript, C

Data Structures and Algorithms: Arrays, Strings, Linked Lists, Stacks, Queues, Hashing, Sorting, Searching

Core Concepts: Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Tools: Git, GitHub, Linux, VS Code

Experience

Codec Technologies Pvt. Ltd. Jul 2025–Aug 2025
Full Stack Developer Intern — Remote

- Built backend modules and implemented scalable business logic
- Developed secure RESTful APIs using JWT-based authentication
- Improved MongoDB and SQL query performance by 25%
- Integrated backend services with React frontend
- Reduced API response time by 30% through performance tuning

Project

AI-Powered E-Commerce Website

- Designed backend workflows for product, cart, and order management
- Implemented role-based access control and secure authentication
- Developed over 15 RESTful API endpoints
- Optimized database performance, reducing load time by 35%
- Created responsive user interfaces using React

Certifications

Data Structures Workshop — ScholarHat (2023)
Frontend Development Workshop — ScholarHat (2023)
Introduction to Data Science in Python — University of Michigan (Coursera, 2024)
