PROFILE SUMMARY

Enthusiastic and motivated MCA student with a strong foundation in software development, web technologies, and problem-solving. Skilled in Python, JavaScript, HTML, CSS, and SQL. Passionate about developing innovative applications and learning emerging technologies. Looking forward to contributing technical and analytical skills to a growth-oriented organization.

TECHNICAL SKILLS

- Languages: C++, Python, JavaScript
- Web Technologies: HTML, CSS
- Database: SQL
- Tools & Platforms: VS Code, GitHub, MySQL

EDUCATION

Course	Year	Score
Bachelor of Computer Application (BCA)	2024	78%
Master of Computer Application (MCA)	2026	Pursuing
Class XII – NIOS	2021	70%
Class X – CBSE	2017	6.6 CGPA

PROJECTS

Mini Project: School ERP System
Developed a web-based School ERP System to manage student records, attendance, fees, and examination details. The project helped automate administrative tasks and improve communication between teachers, students, and management. Implemented modules for login authentication, student data management, and report generation using HTML, CSS, JavaScript, and SQL.

Major Project: Driver Drowsiness Detection System
Designed and developed an AI-based Driver Drowsiness Detection System aimed at reducing road accidents caused by fatigue. The system monitors eye movement and facial expressions using a webcam and alerts the driver with an alarm when signs of drowsiness are detected. Used Python and computer vision concepts to improve real-time monitoring and accuracy.
