Devanshu pal

Network Engineer

Dedicated and motivated Computer Science student specializing in Networking and CCNA. Skilled in IP addressing, subnetting, routing protocols (RIP, OSPF, EIGRP), VLAN configuration, and network troubleshooting. Hands-on experience with Cisco Packet Tracer and GNS3 for designing and troubleshooting network topologies. Seeking an opportunity to start my career as a Network Engineer and apply practical networking skills in real-world environments.

Skills

- OSI model ● ● ● ● ○
- IP address and subnating ● ● ● ● ○
- Network device monitoring ● ● ● ○ ○
- Layer 2/3 protocol ● ● ● ● ●
- OSPF routing ○ ○ ○ ○ ○
- DNS implementation ○ ○ ○ ○ ○

Hobbies

- gym
- Reading
- Travelling

Language

- English
- Hindi

Certifications

13 October 2025

- Cisco Certified Network Associate (CCNA) – Completed certification covering routing, switching, VLAN, OSPF, EIGRP, network security and troubleshooting fundamentals.

Education

- B-Tech sanskar college engineering and technology

August -2023 - June -2027

Bachelor of Technology (B.Tech) – Computer Science Engineering (Artificial Intelligence & Machine Learning)
Affiliated to Dr. A. P. J. Abdul Kalam Technical University

- CGPA: 7.5+ (Overall)

professional experience

Networking lab practice CCNA learning

October -2025 - January -2026

- Practiced network configuration and troubleshooting using Cisco Packet Tracer while learning CCNA networking concepts.
- Implemented networking concepts such as VLAN configuration, subnetting, routing basics and network connectivity testing during CCNA practical labs.
- Designed basic network topologies and performed configuration and troubleshooting using Cisco IOS commands.

Project

- Hospital Network Infrastructure Design | Cisco Packet Tracer
- Designed VLAN-based network for hospital departments
- Implemented Inter-VLAN Routing and DHCP configuration
- Applied ACL and STP for security and loop prevention.
- ---
- Bank Network Architecture Design | Cisco Packet Tracer
- Implemented VLAN segmentation and OSPF routing
- •Configured NAT, DHCP, and Port Security
- •Designed scalable and secure banking network infrastructure.

TECHNICAL SKILLS

• Networking Fundamentals: OSI Model, TCP/IP, IPv4/IPv6, Subnetting.

• Routing Protocols: Static Routing, RIP v1/v2, OSPF, EIGRP.

• Switching Technologies: VLAN, Trunking. (802.1Q), VTP, STP, EtherChannel.

• Network Services: DHCP, NAT, PAT, DNS.

• Network Security: ACL, Port Security.

• Tools: Cisco Packet Tracer, GNS3, Wireshark.
