LinkedIn | GitHub | LeetCode | Portfolio
Software Engineer | Backend Developer

PROFESSIONAL SUMMARY

Final-year B.Tech CSE student with hands-on experience in backend development, database-driven applications, and REST APIs through internships and academic projects. Strong understanding of software development fundamentals, problem-solving, and system design concepts with a keen interest in backend engineering and distributed systems.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, SQL, Python
- **Backend:** Node.js, Express.js, REST APIs
- **Databases:** MongoDB, MySQL, Firebase
- **Tools:** Git, GitHub, Linux , VS Code, Android Studio
- **Core Concepts:** DSA, OOP, DBMS, SDLC, Computer Networks
- **Currently Learning:** Golang , Docker , Microservices

PROFESSIONAL EXPERIENCE

Winter Intern Trainee | *Netcamp Solutions Pvt. Ltd.* **|** *Hybrid* **Dec 2023 – Jan 2024**

- Developed Java-based applications with backend database integration and authentication workflows.
- Implemented CRUD operations and optimized SQL queries for efficient data management.
- Configured Linux-based networking services including DNS, DHCP, Mail Server, and Web Server.

Artificial Intelligence Intern | *Acmegrade Private Limited* **|** *Remote* **Aug 2023 – Nov 2023**

- Worked with structured datasets for data preprocessing, analysis, and predictive modeling.
- Developed data pipelines and performed feature engineering using Python libraries.
- Analyzed datasets using Pandas and NumPy to derive actionable insights.

PROJECTS

Team Task Manager | ***Tech:*** *React.js, Node.js, Express.js, MongoDB, Tailwind CSS* *Github_link*

- Built a full-stack task management platform with JWT authentication and role-based access control.
- Built RESTful APIs with CRUD functionality for project management, task assignment, and status tracking.
- Designed responsive dashboards with validations, protected routes, and secure user workflows.

Enterprise Network & Server Infrastructure Setup | Tech: *Linux, DNS, DHCP, Mail Server, Networking*

- Configured secure enterprise networking infrastructure with DNS, DHCP, Mail Server, and centralized file management.
- Implemented departmental access control and secure resource sharing for multiple user groups.
- Managed domain configuration, IP allocation, and Linux-based network services.

EDUCATION

Bachelor of Technology in Computer Science (Hons. in Cybersecurity) | *RKGITM , Ghaziabad* | **2022–2026** | **CGPA: 8.6 / 10**
Class XII (CBSE) | *S V S Vidya Mandir, Ghaziab*ad | **2022** | **80%**
Class X (CBSE) | J D Academy , Ghaziabad | **2020** | **83%**

CERTIFICATIONS

- NPTEL – Data Structures and Algorithms using Java | IIT Kharagpur
- AWS Cloud Practitioner Essentials | AWS Skill Builder

EXTRA-CURRICULARS

- Solved **250+ DSA problems on LeetCode**, improving problem-solving and algorithmic thinking.
- Participated in hackathons and collaborated in teams, effectively communicating technical ideas.
