PROFILE SUMMARY

Passionate and energetic computer science and engineering student with a sound knowledge of programming and software development. Able to use C, C++, Java, Python, and DSA with C++ efficiently. Knowledgeable in modern web technologies such as HTML, CSS, JavaScript, React.js, Express.js. Committed to the development of efficient and user-friendly software and looking forward to applying my technical skills in authentic industry projects.

WORK EXPERIENCE

Industrial Training – Netcamp Solutions Private Limited 07/2025 – 08/2025
Completed training in Network Management, Web Development, Android Development, and Core Java, gaining hands-on experience in application development and industry-level practices.

EDUCATION

Bachelor Of Technology and Computer Science Engineering 2022 – 2026
Raj Kumar Goel Institute of Technology, Ghaziabad Ghaziabad, India
- CGPA/Percentage: 8.34

Central Board of Secondary Education 2021 – 2022
Class XII - Saraswati Bal Mandir Sr. Sec. School Modinagar Road Hapur Hapur, India
- Percentage: 82.8

Central Board of Secondary Education 2019 – 2020
Class X – Saraswati Bal Mandir Sr. Sec. School Modinagar Road Hapur Hapur, India
- Percentage: 74

TECHNICAL SKILLS

Web Technologies
- **Frontend:** HTML, CSS, JavaScript , Tailwind CSS, React.js
- **Backend:** Node.js, Express.js, REST APIs

Database & Tools
- **Database:** MongoDB, MySQL, Mongoose
- **Tools:** Git, GitHub, Postman, VS Code

Programming & Core Concepts
- C, C++, Java, Python
- Data Structures and Algorithms (DSA)
- Object-Oriented Programming (OOP)
- Database Management Systems (DBMS)

PROJECTS

Music Player App 12/2024
- Built an Android music player app to stream and play local audio files with a smooth and responsive UI.
- Tools and Technologies used: Kotlin, Exo Player, Media Session API, Android Studio
- Designed and developed a Kotlin-based music player that supports local audio playback with media controls, background play, and notification controls. Integrated Exo Player for efficient audio streaming and playback. Implemented playlist management, shuffle/repeat features, and persistent playback state.

Random Password Generator 02/2025
- Developed a Random Password Generator using HTML, CSS, and JavaScript to create secure and customizable passwords. Implemented features such as adjustable length and multiple character options, including uppercase, lowercase, numbers, and symbols. Designed a responsive and user-friendly interface with instant password generation and copy-to-clipboard functionality for improved usability.
