Summary

An ambitious developer eager to work on real-world projects that improve user experience. Motivated to learn, grow, and contribute within a collaborative team.

Work Experience

Softpro India Pvt.Ltd. July 2025 - August 2025

I completed a Java Developer internship where I worked on Java applications and learned coding, debugging, and testing. I collaborated with experienced developers and gained exposure to the full software development process. The internship helped me build real-world development skills and strengthened my foundation in Java programming.

Projects

Food Delivery App (Frontend) Github Link

Built a responsive food delivery app interface with interactive menu, restaurant pages, and basic cart functionality using clean and mobile-friendly UI design.

Predicting Plant Growth using Power BI Github Link

I led a team of four to analyze plant and environmental data and built an interactive Power BI dashboard. Using DAX formulas, we predicted plant growth with **64% accuracy**. This project improved my data analysis, visualization, and teamwork skills.

Heart disease prediction using ML Github Link

Python, scikit-learn; trained a classification model to predict heart disease risk.

Education

2023 - 2026	Minor Degree in **Cyber Security** from **AKTU, Lucknow**	
2022 - 2026	Bachelor of Technology(CSE-DS) at **RKGIT, Ghaziabad**	(Percentage - 82.82)
2022	Class 12th Central Board of Secondary Education	(Percentage - 70.4)
2020	Class 10th Central Board of Secondary Education	(Percentage - 76.8)

Skills

Technical Skills	Java, Python, Pandas, HTML, CSS, JavaScript, MySQL, Power BI, Microsoft Office
Soft Skills	Problem Solving, Communication Skills (English)

Certifications

Data Analytics with Python,Introduction to IOT, DSA using Java	NPTEL
100-hour Training in Data Engineering & Visualization	HCL (OnCampus)
Project-Based Training in Data Visualization	FutureSkills Prime

Extracurricular Activities

Role	Designing Head, DataQuest Society, Dept. of Data Science, RKGIT created promotional graphics and event visuals
