Objective

To contribute my positive attitude, adaptability, and communication skills to support team goals and deliver quality work and A self motivated hardworking individual dedicated towards work.

Profile Summary

- Hands-on experience in Power BI and Tableau for designing interactive dashboards and reports.
- Good command of Microsoft Excel including pivot tables, data validation, lookup formulas, charts, conditional formatting, etc.
- Knowledge of SQL Server development and expertise in transform data with SQL queries based on the reporting solution needs.
- Practical knowledge of SQL for data extraction, transformation, and manipulation using queries in relational databases.
- Familiar with Power Query Editor for data cleaning, transformation, and loading processes in Power BI and Experience in connecting Power BI with multiple data sources such as Excel, CSV, SQL Server, SharePoint Folder, and Web data.
- Analytics and data-warehousing requirements providing effective resolution to customer queries.
- A proactive and adaptable Computer Science graduate with strong problem-solving skills and a calm attitude under pressure.

Education

College of Engineering Roorkee(UTU) — Sept 2021 –June2025
B.Tech in Computer science Engineering — Roorkee,Uttarakhand

Kendriya Vidyalya — April 2020 – July 2021
Intermediate — Haridwar, Uttarakhand

Kendriya Vidyalya — April 2018 – March 2019
Highschool — Haridwar, Uttarakhand

Projects

UPI Transaction Dashboard using Power BI

- Developed an interactive Power BI dashboard to analyze UPI transaction data, including volume, value, success rate, and user behavior. This helped visualize key payment trends and provided clear insights for better decision-making.
- Cleaned, transformed, and modeled raw transaction data using Power Query and DAX for accuracy and efficiency.Ensured high-quality datasets that powered reliable and fast-performing reports.
- Designed visually compelling reports with custom KPIs, slicers, and drill-down charts.Enabled users to explore time-based and category-wise trends quickly and intuitively.
- Implemented dynamic filters and user-friendly navigation throughout the dashboard. Improved the overall user experience, making insights more accessible to stakeholders.
- Automated data refresh and optimized report performance for real-time transaction monitoring.Reduced manual effort and ensured the dashboard always reflected the latest UPI data.

E-Commerce Dataset Modelling for Business Intelligence and Reporting

- Designed and structured an optimized e-commerce data model using SQL to enhance query performance. Improved overall data retrieval efficiency by 30
- Developed Python scripts to automate data cleaning, transformation, and insertion tasks. Reduced manual effort significantly and improved data consistency.
- Created SQL procedures, functions, and triggers to improve analytical depth and ensure data accuracy. These enhancements supported insights that increased company profit by 15
- Performed exploratory data analysis to identify customer behavior patterns, sales trends, and product

Performance.Insights contributed directly to strategic decisions and revenue growth.

- Built interactive Power BI dashboards to present KPIs and simplify business performance tracking. Enabled faster, data driven decision-making across teams.

Technologies

Languages: C, Python,SQL.
Technologies: Microsoft excel, Microsoft Power point, Microsoft word,Power BI,Tableau,
Key Skills:

- Excel (Vlookup, Hlookup, Pivot Table, Sumfis, Countifs, Conditional Formatting, Filter, Macro, Advanced Excel.
- Power BI (Data modeling, Visualization,DAX measures creation, RLS)
- PowerQuery (fetching and transforming the data from various sources).
- Tableau (Data modeling, Visualization,RLS)
- SQL Server (Fetching / SQL Procedures / Custom Functions).

Softskills

- Problem-Solving and Attention to detail
- Friendly nature and Adaptability
- Communication and Critical thinking
- Teamwork and Collaboration
- Growth Mindset
