SUMMARY

Detail-oriented Data Analyst with hands-on experience in Python, SQL, Excel, Power BI, and data visualization. Skilled in EDA, KPI analysis, dashboard development, and AI-driven projects, transforming raw data into actionable business insights.

EXPERIENCE

Shamgar Software Solutions **Oct 2025 – Mar 2026**

Data Science Intern

- Worked with **Python** and **SQL** for **data cleaning**, **analysis**, and **reporting tasks**.
- Performed **exploratory data analysis** and **extracted insights** from structured datasets.
- Built **mini analytical projects** using data science workflows and visualization techniques.
- Collaborated in mentor-guided assignments and project discussions.

Nullclass **Jul 2025 - Aug 2025**

Data Analyst Intern

- Queried and processed 10,000+ transactional records using **SQL** and **Python**, building an interactive **Looker Studio dashboard** to monitor key sales KPIs.
- Performed EDA using **Python (Pandas)** to analyze KPIs such as **Average Order Value** and revenue trends.
- Reduced stakeholder decision-making time by 30% by developing and delivering an interactive data dashboard.

PROJECTS

AI-Powered Exercise Form Detection Platform || *Next.js, React, TensorFlow.js* GitHub

- Developed an AI fitness platform for **real-time pose detection** and **rep counting** using **webcam input**.
- Used **TensorFlow.js MoveNet** for exercise tracking including Squats, Push-ups, Bicep Curls, and Jumping Jacks.
- Developed **responsive modules** including dashboard, login, leaderboard, and video library.

Sales Analytics Dashboard || *Looker Studio, SQL, Python, Pandas, Seaborn* GitHub

- Developed a **Looker Studio dashboard** to visualize sales KPIs (AOV, profit trends) for stakeholders.
- Cleaned and transformed over **10,000 rows** of transactional data using **SQL** and **Python (Pandas)**.
- Reduced stakeholder decision-making time by **30%** by centralizing key business metrics.

Multi-Factor Pricing Optimization Framework || *Excel, Optimization, Modeling* GitHub

- Designed a **rule-based pricing engine** analyzing **50 SKUs**, integrating **cost structure, demand signals, inventory health**, and **competitive benchmarks**.
- Generated pricing recommendations adjusting **84%** of the catalog (42 increases, 8 decreases) while maintaining **100% margin floor protection**.
- Achieved an average price optimization of **+10.65%**, identifying maximum upside potential of **+56.89%** across high-opportunity SKUs.

SKILLS

- **Core Skills**: Python, SQL, Power BI, Advanced Excel (VLOOKUP, Pivot Tables)
- **Data Analysis**: EDA, KPI Analysis, Data Cleaning, Statistics, ETL, Business Reporting
- **Data Visualization**: Power BI, Tableau, Looker Studio, DAX, Power Query
- **AI & Analytics**: TensorFlow.js, Computer Vision, Pose Estimation, Real-Time Analytics
- **Databases & Tools**: MySQL, PostgreSQL, Git, Jupyter Notebook, VS Code, Google Sheets
- **Web & Technologies**: React.js, Next.js, Tailwind CSS

TRAINING

Capgemini Centre of Excellence in Skilling, NSEZ Noida **Jan 2026 - Mar 2026**

Data Analytics Trainee

Completed industry training in Data Analytics, Business Reporting, Data Visualization, and Data-Driven Decision Making.

EDUCATION

IMS Engineering College **Aug 2022 - June 2026**

B.Tech in Computer Science *CGPA: 6.8*

CERTIFICATIONS Link

- Google Data Analytics Professional Certificate *(Coursera)*
- Python for Data Science IBM *(Coursera)*
- SQL Certification *(HackerRank)*
