SHRISTI NEGI

+91 8882174355 shristinegi268@gmail.com

ABOUT ME

Final-year BCA student with a strong interest in Data Analytics, Artificial Intelligence, and Machine Learning. Skilled in Python, SQL, Java, C++, and data analysis libraries such as Pandas and NumPy, with hands-on experience in building data-driven applications and predictive models using Flask and Machine Learning techniques. Familiar with database management, web development, and cloud technologies, along with practical exposure to AI/ML projects including stock price prediction systems. Passionate about transforming data into meaningful insights and continuously learning emerging technologies in analytics and intelligent systems.

EDUCATION

2023 - 2026
Jagannath University

Bachelor of Computer Applications

- Studying core subjects including Programming, Database Management Systems, Web Development, and Software Engineering.
- Gained practical knowledge through academic projects, including a stock price prediction system using Python and Flask.
- Developed problem-solving skills and a strong understanding of application development and data handling.

2021-2023(XI-XII)

High School Graduation

- Completed from DBSE Board with specialisation in Science (physics, chemistry, biology)
- Studied core subjects including Physics, Chemistry, and Biology.

CERTIFICATION

- **NPTEL** — The Joy of Computing using Python
- **SWAYAM** — Computer fundamentals
- **NEILIT** — O level
- **Technical Training** — Cloud With DevOps

PROJECTS

Pharmacy Management System (C++)

- Developed a C++ application to manage medicine records, billing, and inventory.
- Implemented file handling for efficient data storage and retrieval.

Serverless Data Pipeline using AWS (S3 & Lambda)

- Built a serverless pipeline using AWS S3 and Lambda for automated file processing.
- Implemented event-driven architecture to process files on upload.

Stock Price Prediction Web Application

- Developed a Flask-based web app to predict stock prices using historical data.
- Used Pandas, NumPy, and Linear Regression with real-time data integration (yfinance).

COMPETENCIES

- **Programming Languages:** C, C++, Java, Python, C#, PHP
- **AI / ML / DL:** Machine Learning, Deep Learning, Data Preprocessing, Model Building
- **Libraries & Tools:** Pandas, NumPy, Scikit-learn, Matplotlib, Flask, yfinance, mplfinance, requests
- **Frameworks & Technologies:** Flask, .NET
- **Web Technologies:** HTML, CSS, Bootstrap
- **Database:** MySQL / SQLite
- **Cloud Technologies:** AWS (S3, Lambda)
- **Tools & Platforms:** Git, GitHub, VS Code, Visual Studio, google ads,Jupyter Notebook
