PARAS TOMAR

AWS Cloud Engineer | Infrastructure Automation
Noida, India | +91-9027609623 | parastomar0109@gmail.com

PROFESSIONAL SUMMARY

AWS Cloud Engineer with 3.6+ years of experience in AWS Administration, Linux server management, 24x7 production support, cloud infrastructure monitoring, incident management and automation.

TECHNICAL SKILLS

- **Cloud Platforms:** AWS, Azure
- **DevOps and Automation:** Terraform, Ansible, Jenkins, GitHub Actions, Git, Docker
- **Monitoring:** CloudWatch, Grafana, Nagios, Azure Monitor
- **Operating Systems:** Linux (RHEL, Ubuntu, Amazon Linux, SUSE), Windows Server
- **Scripting:** Bash, Shell Scripting, Python
- **Networking & Security:** VPC, DNS, SSL/TLS, IAM, Security Groups
- **Ticketing:** ServiceNow, JIRA, PagerDuty

PROFESSIONAL EXPERIENCE

Cloud Infrastructure Engineer — Oct 2022 – Present
HCL Technologies — Noida, India

Clients: Hudson's Bay Company (Saks Global), McCain Foods | 24x7 Global Production Support

- Manage and troubleshoot 200+ Linux servers across AWS and Azure environments in 24x7 support operations.
- Administer AWS services including EC2, IAM, VPC, Route53, S3, CloudWatch, ACM and Security Groups.
- Monitor infrastructure using CloudWatch, Nagios, Grafana and perform fault isolation and troubleshooting.
- Respond to incidents within SLA timelines using ServiceNow, JIRA and PagerDuty.
- Perform RCA, create runbooks and maintain knowledge base articles.
- Automate operational tasks using Ansible, Terraform, Python and Bash scripting.
- Support patching, backup validation, restoration testing and high-availability environments.

- Used ServiceNow, Jira, and PagerDuty for incident and change management (ITIL practices).
- Administered SSL/TLS certificates using AWS ACM ensuring secure and uninterrupted communication
- Collaborate with DevOps, development and client stakeholders to resolve production issues.
- Participate in regular operational reviews and continuous improvement initiatives.

KEY ACHIEVEMENTS

- Reduced incident resolution time by 25% through automation and proactive monitoring.
- Reduced manual effort by approximately 60% through operational automation.
- Achieved 15% cloud cost optimization through AWS resource analysis.
- Maintained 99.9% uptime across production environments.
- Successfully delivered OS modernization and patching initiatives.

CERTIFICATIONS

AWS Certified SysOps Administrator – Associate

EDUCATION

B. Tech in Computer Science Engineering CGPA: 8.46/10

I.M.S. Engineering College, Ghaziabad 2018-2022
