PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in Python, SQL, Excel, and Power BI. Skilled in data cleaning, exploratory data analysis (EDA), and dashboard development. Experienced in transforming raw data into meaningful insights to support business and decision-making processes. Strong analytical mindset with a foundation in data science and machine learning concepts.

TECHNICAL SKILLS

- Languages: Python, SQL
- Databases: MySQL, PostgreSQL
- Libraries: Pandas, NumPy, Matplotlib, Seaborn
- Visualization Tools: Power BI, Excel
- Analytics Skills: Data Cleaning, EDA, Dashboard Design

EDUCATION

Master of Computer Application | 8 CGPA) — **Sep 2024 – Present**
Shobhit Institute of Engineering & Technology, Meerut (UP)

Bachelor of Computer Applications | 67% — **2020 – 2023**
Veer Kunwar Singh University, Ara, Bihar

PROJECTS

Authentication & Profile Management System (Full Stack Project)

- **Tools :** React.js, Node.js, Express.js, MongoDB, JWT, Multer
- Built a secure full-stack application with JWT authentication, protected routes, and RESTful APIs for user management.
- Implemented profile updates and image upload using Multer, with frontend integration via React Router and Axios**.**

Language Translator

Tools : Python

- Built a translator application capable of converting text between multiple languages.

Phone Number Tracker

Tools : Python, Tkinter, OpenCage API

- Developed a GUI-based application to track phone number details such as country, location, and time zone.

Climate Change and Weather Details
Tools : HTML, CSS, JavaScript

- Designed and developed a responsive website providing climate change insights and real-time weather information.

CERTIFICATIONS

Full Stack Development Internship – Flikt Technology Web Solutions | 1-Month Internship

- Completed a hands-on internship in full stack development focusing on frontend and backend integration.
- Worked with React.js, Node.js, Express.js, and MongoDB to build secure web applications.
- Implemented user authentication, RESTful APIs, and basic deployment practices.
