Profile

Detail-oriented and motivated AI & Machine Learning professional with a strong foundation in data analysis, supervised and unsupervised learning, and model evaluation. Proficient in Python, data preprocessing, and building basic machine learning models. Eager to apply problem-solving skills and continuously learn to contribute to real-world AI solutions in a dynamic environment.

Education

Shobhit University Meerut **Aug. 2024 – July 2026**
Master of Computer Application *Noida, Delhi*

Veer Kunwar Singh University **2020 – 2023**
Bachelor of Computer Applications (BCA) *Ara, Bihar*

Programming Skills

Programming Languages: Java, JavaScript, Python

Web Technologies: HTML, CSS

Technical Skills

Core Data Skills: Data Analysis & Interpretation, Data Cleaning & Wrangling, Exploratory Data Analysis (EDA), Descriptive Statistics, Data Validation & Quality Checks

Programming & Querying: SQL (Joins, Subqueries, Aggregations, Window Functions - Basic), Python (Pandas, NumPy, Matplotlib, Seaborn), Basic Scripting, Excel (VLOOKUP/XLOOKUP, INDEX-MATCH, Pivot Tables)

Data Visualization: Power BI (Dashboards, Reports, DAX Basics), Tableau (Charts, Dashboards, Filters), Excel Charts & Dashboards, Data Storytelling

Databases & Data Handling: MySQL/PostgreSQL (Basics), SQL Data Extraction, Data Models (Tables, Relationships, Schemas)

Tools & Platforms: Microsoft Excel (Advanced), Google Sheets, Jupyter Notebook, Git/GitHub (Basic), Power BI Service, Tableau Public

Statistical & Analytical Skills: Basic Probability & Statistics, Hypothesis Testing (Basic), Correlation Analysis, KPI Tracking & Reporting

Business & Analytical Skills: Requirement Gathering, Report Automation, Attention to Detail, Problem-Solving, Basic Domain Knowledge (Finance/Marketing/Operations)

Projects

COVID-19 Pandemic Analysis Dashboard | *Python, Pandas, NumPy, Matplotlib, Seaborn*

- Developed a COVID-19 analysis dashboard to track confirmed cases, recoveries, and fatalities across regions
- Performed data cleaning, preprocessing, and exploratory data analysis (EDA)
- Created insightful visualizations using Matplotlib and Seaborn to communicate trends effectively

HR Analysis Dashboard | *Power BI, DAX, Data Modeling*

- Designed an interactive HR analytics dashboard to analyze employee attrition and workforce demographics
- Implemented data modeling and DAX measures for dynamic insights
- Analyzed hiring metrics and performance trends to support decision-making

Price Comparison Web Application | *Python, Streamlit, BeautifulSoup, Requests*

- Developed a web application to compare product prices across multiple platforms
- Implemented web scraping using Requests and BeautifulSoup for real-time data extraction
- Built an interactive Streamlit interface for user-friendly experience

Certifications

Machine Learning & Artificial Intelligence Material Engineering (NPTEL) Innovation with Embedded Systems – Skill Enhancement Training (One Week) Power BI (Skill Circle)
