Summary

Aspiring Computer Science Engineer passionate about Full-Stack Development, Cloud Computing, and building scalable software solutions. Skilled in Python, Java, React.js, Node.js, AWS, and machine learning. Strong problem-solving abilities with a focus on developing high-performance and responsive applications. Seeking opportunities to apply analytical and programming skills to solve real-world challenges in a collaborative and growth-oriented environment.

Technical Skills

- **Programming Languages:** Java, Python, C++, JavaScript, TypeScript, Data Structures, Algorithms
- **Web Development:** HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, Bootstrap, TailwindCSS
- **Backend Development:** REST APIs, Microservices, Serverless Architecture
- **Databases:** MySQL, MongoDB, PostgreSQL, Redis
- **DevOps & Tools:** Git, GitHub, Docker, Jenkins, Postman, Visual Studio Code (VS Code)
- **Cloud Computing:** AWS (EC2, S3, Lambda), Cloud Fundamentals, Serverless Deployment
- **Machine Learning:** Scikit-learn, TensorFlow (basics), Data Preprocessing, Model Evaluation
- **Software Development Concepts:** Object-Oriented Programming (OOP), MVC Architecture, Agile Development (Scrum), Version Control (Git), CI/CD
- **Operating Systems:** Linux, Windows

Projects

Movie Recommendation System

- Developed a machine learning-based system to recommend personalized movie suggestions based on user preferences and viewing history.
- Implemented collaborative filtering and content-based filtering models to improve recommendation accuracy.
- Built using Python, Pandas, and Scikit-learn; deployed a basic version with Flask.
- Used cloud deployment on AWS for real-time recommendation updates.

Invoice Generator

- Developed a Python-based invoice generation tool that automates the creation of client invoices.
- Integrated input forms to capture customer information, product details, and tax computations.
- Generated professional PDF invoices using Python libraries such as ReportLab and FPDF.
- Utilized REST APIs for customer data integration.

Diet Tracking App

- Designed and developed a mobile-friendly diet tracking application to help users log daily meals and monitor calorie intake.

- Implemented features to track nutrition goals and maintain daily health logs.
- Built using Python, SQLite for backend storage, and a user-friendly frontend interface.
- Leveraged cloud services for storing user data and analytics.

Education

Degree	University	Institute	Year
Bachelor of Technology (CSE)	A.P.J. Abdul Kalam Technical University	Raj Kumar Goel Institute of Technology	2022—2026
Intermediate	Central Board of Secondary Education (CBSE)	Dundlod Vidyapeeth Dundlod	2020
High School	Central Board of Secondary Education (CBSE)	Dundlod Vidyapeeth Dundlod	2018

Achievements

- Cleared JEE Mains with a 93 percentile, achieving an All India Rank (AIR) of 70,000.

Certificates

- Programming in Python — Coursera
- Full-Stack Web Development — Coursera/Udemy (Future)
- Cloud Practitioner Essentials — AWS (Future)
