MOHD ASEEM

Data Analyst

aseemmwn2006@gmail.com | ☎ 7060043787 | House No. 335, Mawana, Meerut - 250401 | in LinkedIn | GitHub

PROFESSIONAL SUMMARY

Results-driven Data Analyst with hands-on experience in end-to-end data analysis, ETL pipeline development, and KPI dashboard creation. Proficient in SQL, Python (Pandas, NumPy, Matplotlib), Excel, Power BI (DAX, Power Query), and Tableau. Adept at data cleaning, statistical analysis, and translating complex datasets into actionable business insights to support strategic decision-making.

PROFESSIONAL EXPERIENCE

Data Analyst | KRYPTORA INFOTECH PVT. LTD.

FN-14 Star Plaza, Baccha Park, Meerut • Nov 2025 – Present

- Perform end-to-end data analysis including data extraction via SQL, ETL preprocessing with Python, and advanced dashboard development using Power BI (DAX, Power Query) and Excel.
- Design 5+ interactive, KPI-focused reports and dashboards to track business performance metrics, optimize operations, and support strategic decision-making.
- Transform complex datasets (100,000+ rows) into actionable business insights, driving data-driven strategies across the organization.
- Collaborate cross-functionally with 3+ departments to enhance reporting efficiency, reducing manual reporting time by streamlining data pipelines.

EDUCATION

Bachelor of Technology (B.Tech) — IIMT University, Meerut / *2022 – Present*

12th (UP Board) — KIC Mawana, Meerut / *2021 – 2022*

10th (UP Board) — KIC Mawana, Meerut / *2019 – 2020*

TECHNICAL SKILLS

Programming & Query	Python (Pandas, NumPy, Matplotlib), SQL, R (basic)
Data Visualization	Power BI (DAX, Power Query), Tableau, Microsoft Excel (Advanced)
Statistical Analysis	Descriptive Statistics, Hypothesis Testing, Regression Analysis
Data Engineering	ETL Pipeline Development, Data Cleaning, Data Wrangling, Large Dataset Handling
Tools & IDEs	Jupyter Notebook, Microsoft Excel, SQLite, Git/GitHub
Soft Skills	Problem Solving, Analytical Thinking, Stakeholder Communication

PROJECTS

Hotel Management System (Python GUI-Based) / *Python, Tkinter, SQLite*

- Designed and developed a scalable desktop-based Hotel Management System using Python and Tkinter with modular architecture supporting 4 core operational modules.
- Engineered a normalized SQLite database schema to manage bookings, guests, and rooms; integrated datetime module for dynamic stay-duration and automated pricing computation.
- Built real-time room status tracking and guest check-in/check-out features, reducing manual booking errors to near zero.

Household Services Management Website | *HTML, CSS, JavaScript*

- Designed and developed a multi-page responsive website with 5 dedicated modules (Home, Booking, Complaints, Dashboard, Admin) for managing household service requests.
- Built a real-time admin panel to monitor user requests and manage service operations; used modular file structure for scalability and maintainability.

Blinkit Sales & Operations Dashboard | *Power BI, DAX, Power Query, SQL, Excel*

- Collected and cleaned 50,000+ row Blinkit sales dataset using SQL and Excel, achieving 98%+ data accuracy for downstream analysis.
- Built an interactive Power BI dashboard with 10+ KPIs (total sales, order volume, top products, city-wise revenue) using DAX measures and Power Query for ETL transformation.
- Conducted trend analysis identifying peak sales hours and high-demand product categories, delivering insights to support inventory optimization across 5+ cities.
- Automated data refresh pipeline, reducing manual reporting effort and enabling real-time performance tracking for business stakeholders.

Student Performance Dashboard | *Tableau, Power BI, Excel, Python*

- Processed academic dataset of 500+ student records, applying data cleaning and wrangling techniques to ensure 95%+ data accuracy.
- Developed 2 interactive dashboards in Tableau and Power BI tracking grades, attendance, and subject-wise performance across 3+ departments.
- Enabled educators to identify at-risk students faster by replacing manual spreadsheet tracking with automated, real-time visual reporting.

CERTIFICATIONS

- Data Analysis with Python — IBM | Jul 2025
- SQL and Relational Databases 101 — IBM | Jul 2025
- Introduction to Internet of Things (IoT) — NPTEL | Jul–Oct 2023
- C Programming — IT Meerut | Nov 2023
- Basic Computer & Tally | Aug 2022
