PROFESSIONAL SUMMARY

MBA Finance graduate (CGPA: 7.3) with a strong foundation in financial analysis, investment research, and corporate finance. Hands-on experience with GST/TDS compliance, Tally ERP, and Excel-based financial reporting. Knowledgeable in equity research, mutual funds, portfolio analysis, and financial modeling fundamentals. Certified by Yale, Wharton (UPenn), and UVA in financial markets and corporate finance. Seeking a fresher role in Investment Analysis or Corporate Finance where analytical skills and finance knowledge can create measurable business value.

EDUCATION

Master of Business Administration (MBA) – Finance *2023 – 2025*
Central University of Himachal Pradesh (CUHP) | CGPA: 7.3 / 10

Bachelor of Commerce (B.Com) *2020 – 2023*
Deen Dayal Upadhyay Gorakhpur University (DDU Gorakhpur)

INTERNSHIP EXPERIENCE

Accounts & Finance Intern *Jul 2024 – Aug 2024*
Rajesh Kr Chaubey & Associates | Noida, Uttar Pradesh

- Assisted in preparation and filing of GST returns and TDS computations for multiple clients, ensuring regulatory compliance
- Operated Tally ERP for journal entries, ledger management, and day-to-day accounting of client accounts
- Handled and organized client financial documents including invoices, vouchers, and bank statements for audit support
- Prepared basic financial summaries and MIS reports using MS Excel to track client account status

ACADEMIC PROJECTS

Impact of Artificial Intelligence in the Financial Sector *MBA Project*
Tools: MS Excel, Secondary Research & Data Analysis

- Analyzed AI applications across financial forecasting, risk analytics, fraud detection, and process automation using structured secondary research
- Evaluated algorithmic trading strategies and AI-driven portfolio optimization techniques with quantitative comparisons
- Presented findings showing AI reduces operational costs by up to 22% and improves forecasting accuracy in banking sector

Corporate Governance Case Study – Satyam Scandal *MBA Project*
Tools: MS Excel, Financial Statement Analysis, Secondary Research

- Conducted in-depth forensic analysis of Satyam's fraudulent financial statements and Rs. 7,000+ crore accounting fraud — one of India's largest corporate governance failures
- Evaluated governance failures including auditor complicity, board oversight collapse, and regulatory gaps
- Identified risk management reforms and drew parallels with global corporate fraud cases including Enron and WorldCom
