SANJU VERMA

Data Analyst | Business Analyst | SQL Analyst | BI Analyst | MIS Executive

Jaipur, Rajasthan, India | vermaa.sanju321@gmail.com | +91-8955665366 | linkedin.com/in/sanju123 | github.com/SanjuVerma123

PROFESSIONAL SUMMARY

Results-driven Data Analyst and Business Analyst with hands-on experience in Python (Pandas, NumPy, Matplotlib, Seaborn), SQL (MySQL, SQL Server), Excel, Power BI, and Tableau. Proficient in data cleaning, data wrangling, exploratory data analysis (EDA), statistical analysis, hypothesis testing, regression analysis, ETL workflows, KPI reporting, and dashboard development. Delivered 3+ end-to-end data analytics projects processing 70,000+ records, improving reporting efficiency by up to 30% and model accuracy up to 82%. Completed virtual internships with TATA, Deloitte, and British Airways, applying machine learning, predictive modeling, and data visualization to real-world business problems. Adept at translating complex datasets into actionable business intelligence to support data-driven decision-making.

CORE SKILLS

Programming & Querying: Python (Pandas, NumPy, Matplotlib, Seaborn), SQL (MySQL, SQL Server), DBMS
Data Analytics: Data Cleaning, Data Wrangling, Data Modeling, Exploratory Data Analysis (EDA), Statistics, Hypothesis Testing, Regression Analysis
Visualization & BI: Power BI, Tableau, Looker Studio, Excel (Pivot Tables, Power Query, Dashboards), KPI Reporting, Business Intelligence (BI)
Machine Learning: Predictive Modeling, Feature Engineering, Classification (Logistic Regression, Decision Trees), Scikit-learn, Model Evaluation
Tools & Platforms: Jupyter Notebook, Git, GitHub, ETL, Data Warehousing, MS Excel, Google Sheets, MS Office
Soft Skills: Problem Solving, Analytical Thinking, Business Communication, Stakeholder Collaboration, Attention to Detail, Critical Thinking

PROJECTS

Sales Data Analysis Dashboard | *Power BI, Excel, SQL, Data Visualization*

- Analyzed 50,000+ sales records using SQL and Power BI, identifying revenue trends, seasonal patterns, and profit drivers across 5+ product regions.
- Built interactive Power BI dashboards with 10+ KPIs, dynamic slicers, and drill-down features enabling region- and product-wise performance tracking.
- Improved sales visibility by 18%, cut manual reporting time by 30%, and accelerated data-driven decision-making for senior management.

Customer Churn Prediction | *Python, Pandas, NumPy, Scikit-learn, Machine Learning*

- Cleaned, preprocessed, and engineered features on 20,000+ customer records using Python (Pandas, NumPy), reducing data inconsistencies by 25%.
- Developed and evaluated Logistic Regression and Decision Tree classification models achieving 82%+ accuracy in predicting customer churn risk.
- Visualized behavioral and demographic churn patterns using Matplotlib and Seaborn; insights projected to reduce churn by 15% via targeted retention campaigns.

HR Analytics Dashboard | *Excel, Power BI, Data Visualization, KPI Reporting*

- Analyzed a workforce dataset of 1,400+ employees covering attrition trends, employee demographics, and performance KPIs using Excel and Power BI.
- Designed real-time dashboards tracking headcount, attrition rate, and workforce planning efficiency, reducing HR reporting gaps by 20%.
- Generated actionable insights that directly informed employee retention strategy, enabling a data-driven HR decision-making process.

INTERNSHIP / VIRTUAL EXPERIENCE PROGRAMS

TATA — GenAI Powered Data Analytics | *Virtual Experience | Forage*

- Performed AI-assisted business data analysis on real datasets and built 3+ KPI dashboards using generative AI tools, reducing reporting time by 20%.

Deloitte — Data Analytics | *Virtual Experience | Forage*

- Conducted end-to-end data cleaning and trend analysis on 10,000+ records, delivering 5+ actionable business insights to support client decision-making.

British Airways — Data Science | *Virtual Experience | Forage*

- Performed EDA on customer feedback data and developed predictive classification models with 78%+ accuracy to support data-driven operational reporting.

EDUCATION

B.Tech in Computer Science & Engineering | *Vivekananda Institute of Technology, Jaipur, Rajasthan | 2022 – 2026*

Relevant Coursework: DBMS, Statistics, Data Mining, Machine Learning, Business Intelligence, Data Visualization, Python Programming, Data Structures

CERTIFICATIONS & ACHIEVEMENTS

- **TATA** — GenAI Powered Data Analytics, Forage (Virtual Experience Certificate)
- **Deloitte** — Data Analytics Job Simulation, Forage (Virtual Experience Certificate)
- **British Airways** — Data Science Job Simulation, Forage (Virtual Experience Certificate)
- Delivered 3+ end-to-end data analytics projects processing 70,000+ records — spanning data cleaning, EDA, statistical analysis, ML modeling, data visualization, and Power BI dashboard reporting.
