PROFESSIONAL EXPERIENCE

In-Solutions Global Limited | Processing Officer | Sep 2021 – Jun 2026

• Managed end-to-end dispute lifecycle for VISA, RuPay and UPI transactions, ensuring timely resolution within SLA timelines.

• Processed chargeback, pre-arbitration, arbitration and good-faith cases in accordance with network guidelines and regulatory requirements.

• Handled high-volume payment disputes while maintaining accuracy and operational efficiency.

• Coordinated PCI-DSS assessments, RBI audits, cyber security reviews and VAPT & EAPT Audit evidence submissions.

• Supported API migration projects, UAT activities and production deployments with business and technical teams.

• Provided production support and incident management for critical payment applications.

• Prepared operational MIS reports, audit trackers, risk registers and project status reports.

• Coordinated DR drills, testing activities, recovery validation and post-implementation reporting.

KEY ACHIEVEMENTS

• Successfully managed thousands of transaction dispute cases across VISA, RuPay and UPI payment networks.

• Maintained high SLA adherence and quality standards for dispute processing activities.

• Supported successful completion of PCI-DSS, RBI and Cyber Security audit requirements.

• Contributed to payment platform migration projects with minimal operational impact.

• Coordinated disaster recovery exercises and business continuity activities for critical payment systems.

PROJECT COORDINATOR EXPERIENCE

• Project Planning and Coordination

• Stakeholder and Vendor Management

• Meeting Coordination and MOM Preparation

• Project Status Reporting and Progress Tracking

• Risk and Issue Management

• Change Management Support

• Cross-functional Team Coordination

• Documentation and Compliance Tracking

IT SUPPORT & DISASTER RECOVERY EXPERIENCE

• Production Support and Application Monitoring

• Incident Management and Escalation Handling

• UAT and Testing Support

• Root Cause Analysis (RCA)

• DR Planning, Testing and Validation

• Recovery Documentation and Reporting

• Business Continuity Support

KEY PROJECT

High Value API Migration Project: Coordinated end-to-end migration from legacy payment platform to modern API-based platform. Managed stakeholder communication, testing activities, issue tracking, deployment support and post-migration stabilization while ensuring minimal downtime.
