ELECTRONICS ENGINEERING

Dedicated and passionate Electronics Engineer with a strong academic foundation and a drive to innovate. I'm excited to apply my knowledge and skills in designing, developing, and testing electronic circuits and systems. With a keen interest in [specific area of interest, e.g., embedded systems, IoT, or robotics], I'm eager to contribute to cutting-edge projects and collaborate with like-minded professionals.

KEY COMPETENCIES

PCB Design (KiCard)	Microcontroller (Arduino Nano,Uno, Node Mcu, Raspberry pi)	Teamwork
Programming (Python, Arduino IDE, C etc)	Project Management, Planning and Execution.	Communication
Electronics circuit design		Time management
		Problem solving

EDUCATION

Diploma in Electronics Engineering
Lucknow Polytechnic, Lucknow (2023–2026)
Current Score: 78% (till 5th semester)

Intermediate (12th)
Vardhman Inter College (2021–2022)
Score: 70%

High School (10th)
Ideal Public Inter College (2019–2020)
Score: 84%

ADCA (Computer Course)
E-Max Institute (2021–2022)
Score: 90%

ACHIEVEMENTS

- **Gas Leakage Detection System:** Created a real-time gas leakage detection system using sensors and microcontrollers, ensuring timely alerts and preventing potential hazards.
- **Obstcle-Avoiding Car**: Successfully designed and implemented an autonomous car that detects and avoids obstacles using ultrasonic sensors and microcontrollers, showcasing expertise in robotics and automation.
- **Smart agriculture project**: Used to maintain the agriculture feild advance by using different type sensors and a microcontrollers and most interesting wheel to move the system to regulate the feild.
- **Summer Training at IMD(Indian Meteorological Department)**for 1 Month work and know about different Department
.Radar department, AWS, AGRO,RS/RW.

EDUCATION & CERTIFICATIONS
