Professional Summary

Final-year Computer Engineering student with experience in LLM post-training, prompt engineering, RLHF, and AI model evaluation at Ethara AI. Skilled in Python, AI workflows, structured evaluation, and model optimization. Seeking Software Engineering or AI/ML opportunities.

Technical Skills

AI/ML:	LLMs, Prompt Engineering, RLHF, AI Model Evaluation
Programming:	Python, C/C++, SQL
Tools:	Git, VS Code, Jupyter Notebook, Hugging Face
Other:	Benchmark Testing, Data Annotation, Model Optimization

Experience

Ethara AI **Feb 2026 – May 2026**
LLM Post-Training Intern (Remote)

- Evaluated prompts for reasoning, summarization, and code-generation tasks.
- Applied RLHF-based annotation techniques to improve AI model responses.
- Identified edge cases and supported model fine-tuning strategies.
- Collaborated on dataset validation and AI safety evaluation.

PFEDA Synthetic Pvt. Ltd. **Feb 2022 – Mar 2022**
Quality Analyst

- Conducted quality inspections and documented production issues.
- Improved analytical and structured evaluation skills.

Projects

LLM Prompt Optimization Framework

- Built a prompt evaluation framework for reasoning and code-generation tasks.
- Improved response quality using prompt optimization techniques.

AI Model Evaluation Pipeline

- Developed scoring pipelines for AI output accuracy and safety evaluation.
- Created evaluation rubrics aligned with RLHF best practices.

Education

B.Tech in Computer Engineering **2022 – 2026**
Accurate Institute of Management and Technology, Greater Noida

Diploma in Mechanical Engineering **2019 – 2022**
Lloyd Institute of Management & Technology, Greater Noida

Achievements & Interests

- Focus Areas: AI Safety, LLM Alignment, Prompt Engineering
- Exploring AI benchmarking and open-source AI repositories
- Career Interest: Software Engineering and AI/ML Roles
