OBJECTIVE

Computer Science and Business Systems graduate with internship experience in SQL, Tableau, data analysis, and dashboard development. Interested in working with data to identify trends, generate insights, and support business decision-making. Seeking an entry-level Data Analyst or Business Analyst role to apply and further develop my analytical and problem-solving skills in a practical environment.

EDUCATION

- **Bachelor of Technology – Computer Science and Business Systems**, Noida Institute of Engineering and Technology, Greater Noida *2022 – 2026*
- **XII (CBSE)**, Bharat Ram Global School, Greater Noida *2022*
- **X (CBSE)**, Bharat Ram Global School, Greater Noida *2020*

EXPERIENCE

- **Data Analyst Intern – Capgemini, Noida** *Apr 2026 – June 2026*
  Performed data extraction, data handling, and basic analysis using SQL.
  Created dashboards and visual reports using Tableau and Qlik to represent insights from business datasets.
  Analyzed business datasets to identify trends, patterns, and key performance indicators (KPIs) that supported data-driven decision-making.
- **SQL Intern – Celebal Technologies, Remote** *June 2025 – Aug 2025*
  Worked with SQL Server Management Studio (SSMS) to write, test, and execute SQL queries.
  Performed data extraction and manipulation using joins, filtering, aggregation, and subqueries.
  Gained exposure to query optimization and database management concepts.
- **Intern – Edunet Foundation, Remote** *Jul 2024 – Aug 2024*
  Performed data visualization and built simple chatbots using IBM Cloud.
  Gained practical exposure to cloud-based tools and AI concepts behind chatbots.

PROJECTS

- **Customer Churn Analysis Dashboard**
  Collaborated in a 5-member team to analyze telecom customer churn data using Tableau and Excel. Built interactive dashboards to visualize churn rate, customer demographics, tenure distribution, and regional trends. Identified high-risk customer segments and provided insights to support business decisions and customer retention strategies.

SKILLS

Data Analysis: SQL, Microsoft Excel
Business Analysis: Dashboard Development, Business Reporting
Visualization: Tableau
Databases: MySQL, Oracle SQL
Soft Skills: Analytical Thinking, Attention to Detail
