OBJECTIVE

Enthusiastic Computer Science and Business Systems student with a strong foundation in C, C++, and SQL. Familiar with HTML, CSS, JavaScript and cloud technologies. Keen to combine technical understanding with business insight to find opportunities, make work more efficient, and contribute to the organization's growth and success.

EDUCATION

- **Bachelor of Technology — Computer Science and Business Systems**, Noida Institute of Engineering and Technology, Greater Noida *2022 – 2026*
- **XII (CBSE)**, Bharat Ram Global School, Greater Noida *2022*
- **X (CBSE)**, Bharat Ram Global School, Greater Noida *2020*

EXPERIENCE

- **Intern — Motherson Technology Services Limited, Noida** *March 2026 – May 2026*
  Developed frontend components using React, React Redux Toolkit, TypeScript, and NestJs.
  Assisted in building responsive and user-friendly interfaces for web applications.
  Worked with SQL for basic data handling and integration with frontend features.
- **SQL Intern — Celebal Technologies, Remote** *June 2025 – Aug 2025*
  Worked with SQL Server Management Studio (SSMS) to write, test, and execute queries for data extraction and manipulation.
  Gained experience in query writing, handling tables and joins, and basic query optimization.
- **Intern — Edunet Foundation, Remote** *Jul 2024 – Aug 2024*
  Performed data visualization and built simple chatbots using IBM Cloud.
  Gained practical exposure to cloud-based tools and AI concepts behind chatbots.

PROJECTS

- **PostIt - Full-Stack Job Board**
  Developed a full-stack job board application using React, TypeScript, NestJS, and Firebase with role-based access for recruiters and applicants. Implemented JWT authentication, protected routes, job posting management, and application tracking with secure backend APIs. Built responsive UI with React Query, Axios, and React Router for efficient state management and seamless API integration. Designed features including job search, recruiter dashboard, applicant tracking, and role-based authorization.
  Live Demo: PostIt
- **ShopFlow**
  Developed an E-commerce web application (ShopFlow) using React, TypeScript, and Redux Toolkit with features like product listing, search/filtering, cart, wishlist, authentication, and protected checkout, with state persistence using localStorage.
