ANIKET MAURYA

Bachelor of Technology, Computer Science and Engineering | Greater Noida Institute of Technology

Phone: +91-8318692046 | Email: aniketmaurya8318@gmail.com | LinkedIn | GitHub

PROFILE SUMMARY

Full-Stack Developer (MERN) and Backend Developer with expertise in React.js, TypeScript, Node.js, Express.js, MongoDB, Redis, REST API design, Agile software development, web scraping. Experienced in JWT authentication, role-based access control (RBAC), SDLC methodologies, and cloud deployment (Railway, Vercel). Solid foundation in Data Structures & Algorithms with 300+ problems solved on LeetCode and GeeksforGeeks. Passionate about writing clean, scalable code and delivering high-performance, responsive web applications.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, C++, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Vite

Backend & Database: Node.js, Express.js, MongoDB, MySQL, Redis, REST API, RESTful APIs, JWT,API Integration

Web Scraping & Data: XPath, Web Scraping, Data Cleaning

Tools & DevOps: Git, GitHub, Railway, Vercel, VS Code, MongoDB Atlas, Postman

Methodologies & CS Fundamentals: Agile, SDLC, Data Structures & Algorithms, OOP, DBMS

EXPERIENCE

Software Development Trainee — Blu Parrot Venture

May 2026 – Present | Onsite, Gurgaon

- Developed and maintained backend services and RESTful APIs using Node.js and Express.js in an Agile team environment, ensuring robust and scalable data handling across multiple sprints.
- Performed web scraping and data cleaning using XPath and related technologies to extract and process structured data from various sources for downstream applications.
- Designed and optimized backend API workflows with JSON-based data exchange, improving system performance and integration reliability by streamlining request/response handling.
- Implemented Redis caching strategies to enhance backend response times and reduce database load, improving overall API latency.

Web Development Intern — Labmentix Pvt. Ltd.

April 2025 – July 2025 | Remote

- Built responsive web applications using HTML, CSS, JavaScript, and backend technologies, following SDLC and Agile development practices.
- Led RESTful API development for secure JWT authentication, improving data security and system performance.
- Developed and optimized frontend and backend modules through systematic debugging, testing, and code reviews.
- Collaborated in an Agile environment using Git/GitHub for version control, sprint planning, and peer code reviews.

PROJECTS

Team Task Manager — Full-Stack Project Management App

React.js, Node.js, Express.js, MongoDB Atlas, JWT, CSS Modules, Railway

- Built a full-stack MERN team collaboration application with role-based access control (Admin/Member) supporting project creation, task assignment, and progress tracking for multiple teams.
- Engineered RESTful APIs with Express.js and MongoDB for projects, tasks, comments, and team members, secured with JWT authentication and middleware-based authorization.
- Designed a normalized MongoDB schema and implemented indexing to optimize query performance for task filtering and dashboard views.
- Built reusable React components with CSS Modules to create a responsive, mobile-friendly UI for task boards and team dashboards.

- Deployed on Railway with independently scalable backend/frontend services, environment-based CORS configuration, and automated health-check endpoints for uptime monitoring.

Wanderlust — Hotel Booking Platform

React.js, Node.js, Express.js, MongoDB Atlas, JWT, Mapbox, Tailwind CSS, Vercel

- Engineered a full-stack hotel and property booking platform using Node.js, Express.js, and MongoDB Atlas, supporting property listings, search, and booking management.
- Implemented secure JWT-based authentication and role-based authorization to distinguish between property owners and guest users.
- Integrated the Mapbox API for location-based property search and interactive maps, improving discoverability of nearby listings.
- Enabled cloud-based image uploads for property listings and built a responsive UI with Tailwind CSS for a seamless booking experience across devices.
- Deployed the application on Vercel with optimized build configuration, reducing load times and improving overall performance.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering

Greater Noida Institute of Technology | Graduating June 2026 | CGPA: 7.6/10

Class XII, U.P. Board

Neena Thapa Inter College | 2022

Class X, U.P. Board

Neena Thapa Inter College | 2020

ACHIEVEMENTS

- Competitive Programming: Solved 300+ Data Structures & Algorithms problems on LeetCode and GeeksforGeeks.
- Certifications: C++, JavaScript, MySQL, Python Programming.
- Workshop: Web Development in collaboration with Softpro Solutions & AKTU.
- Clubs: Member of Google Developer Group (GDG) and Corporate Skill Development Center (CSDC).
