RAJAT DUBEY

Data Analyst | SQL | Python | Power BI | Statistics

Delhi NCR • +91 99902 53710 • rajatdubey315@gmail.com • LinkedIn • GitHub

PROFESSIONAL SUMMARY

Data Analyst with hands-on experience building analytical systems that handle 12.8M+ records, delivering measurable business outcomes through SQL optimization, Python automation, and Power BI dashboarding. Combines a B.Tech with an MCA and analytics a differentiator most analysts lack. Proficient in statistical hypothesis testing, and translating raw data into actionable business insights.

TECHNICAL SKILLS

Languages	SQL (MySQL, PostgreSQL, MSSQL) — CTEs, Window Functions, Stored Procedures, Query Optimization
Python	Pandas, NumPy, Matplotlib, Seaborn, Requests — data cleaning, data visualization
Power BI	DAX Measures, Calculated Columns, Interactive Dashboards, Data Modeling
Statistics	Hypothesis Testing, Correlation, EDA
Data Modeling	OLAP, Star Schema, ETL Processes, Database Normalization, Performance Tuning
Tools	Excel (Pivot Tables, VLOOKUP, XLOOKUP, Index-Match), Git/GitHub, JIRA, Postman, VS Code

CORE ANALYTICS PROJECTS

Vendor Performance & Profitability Analysis | *Python, POWER BI*

- Engineered a performance tracking system processing 12.8M+ records; reduced query execution from several hours to 23 seconds using CTEs, Window Functions, indexing, and query optimization.
- Conducted statistical hypothesis testing to prove profit margin variance across vendors — directly identifying ₹1.2M in annual savings for the business.
- Built interactive Power BI dashboards with DAX measures tracking vendor KPIs, resulting in a 15% reduction in inventory liquidation time.
- Applied star schema data modeling to structure the reporting layer for optimal BI performance.

Global Layoff Trend Analysis | *SQL Window Functions, EDA*

- Cleaned and transformed 10,000+ records using DENSE_RANK() and Rolling SUM() to derive industry-level layoff impact trends over time.
- Utilized CTEs and Self-Joins for complex duplicate removal and multi-step data integrity assurance.
- Surfaced sector-level insights highlighting which industries and geographies experienced the most severe workforce contractions.

PROFESSIONAL EXPERIENCE

Quality Analyst Intern | ECSO Global Pvt. Ltd. *Nov 2023 – Sep 2024*

- Validated large-scale datasets for accuracy, ensuring 99.9% data integrity before production migration.
- Automated repetitive validation workflows using scripted logic, reducing manual testing effort by 30%.
- Identified and resolved 150+ data defects across cross-functional teams using JIRA for tracking.

Assistant Manager | Essar Construction India Ltd. *Sep 2022 – JUL 2023*

- Built and maintained MIS reports in Excel tracking project KPIs, cost variances, and milestone progress for senior management decision-making.
- Synthesized multi-departmental data into structured analytical reports for bid submissions and stakeholder presentations.
- Managed daily resource tracking and reporting — developing a strong foundation in structured data management under real operational pressure.

EDUCATION & CERTIFICATIONS

Master of Computer Applications (MCA) – IMS Engineering College (8.31) | 2024 – 2026

B.Tech in Civil Engineering – Delhi Technical Campus (78 %) | 2018 – 2022

Certifications: Data Science Professional – ODIN School | Data Analyst Training – Capgemini | Software Testing – Ducat
