Professional Summary

Computer Science undergraduate with knowledge of web development, programming, and database management. Familiar with Python, JavaScript, HTML/CSS, and MySQL through academic projects and self-learning. Seeking an entry-level software developer role to enhance technical and problem-solving skills.

Education

Sharda University *2022 - 2026*

Bachelor of technology - Computer Science

- GPA: 7.5
- **Coursework:** Data Structure and Algorithms, Object Oriented Programming ,Operating Systems.

Experience

Software Engineer Intern *June 2025 - May 2026*

Homies4u

- Assisted in backend development tasks using Python and MySQL. .
- Worked on database queries and basic data handling operations.
- Participated in API testing and debugging to ensure smooth communication between application.

Projects

BGMI TOURNAMENTS

- Developed a responsive web application for tournament registration using HTML, CSS, JavaScript, and basic React. CSS.
- Implemented player registration forms and data storage functionality using MySQL.

SORTING ALGORITHM VISUALIZER

- Developed a web application using HTML, CSS, and JavaScript to visualize sorting algorithms.
- Helped users understand algorithm behavior and time complexity interactively.

RANDOM PASSWORD GENERATOR

- Developed secure-password tool demonstrating awareness of cybersecurity practices.
- Implemented real-time password strength validation.

Technologies

Languages: C++, C , JavaScript , Python

Web Development: HTML , CSS , ReactJS (Basics).

Clouds/Databses: MySQL

Certifications

- Deloitte - Data Analytics Job Simulation (Forage, Apr 2026).
- Introduction to Generative AI – (Google Cloud,Jan 2026)
- JPMorgan Chase & Co - Software Engineering Job Simulation (Forage, Apr 2026)
