MOHD ASEEM

aseemmwn2006@gmail.com 7060043787 Mawana, Meerut - 250401 Linkedln GitHub

PROFILE

Aspiring Data Analyst with a solid foundation in statistics, data analysis, and visualization techniques. Proficient in SQL, Python, Excel, and data visualization platforms including Tableau and Power BI. Experienced in data collection, cleaning, and interpretation to enable data-driven decision-making. Demonstrates strong analytical and problem-solving skills, with a keen ability to transform raw data into actionable insights. Highly motivated and quick to adapt, committed to contributing effectively to business objectives through insightful data analysis.

PROFESSIONAL EXPERIENCE

KRYPTORA INFOTECH PVT. LTD. , *Data Analyst* — *Nov*/2025 – Present FN-14 Star Plaza Baccha Park, Meerut

Serving as a Data Analyst at **KRYPTORA INFOTECH PVT. LTD.** driving data-driven strategies by transforming complex datasets into actionable business insights. Leading end-to-end data analysis including data extraction (SQL), data preprocessing (Python), and advanced dashboard development (Power BI & Excel). Designing interactive and performance-focused reports to track KPIs, optimize operations, and support strategic decision-making. Collaborating cross-functionally to enhance reporting efficiency and improve overall business outcomes.

IIMT Engineering College, Meerut (IIMT Startup Launch Pad Foundation), *Summer Intern* — July/2025 – Sep/2025 Meerut

- Completed 8-week intensive internship in **Code Data Cloud and AI/ML** conducted by Industry Professionals.
- Covered **Python Programming**, Data Engineering & EL, Cloud Computing Google Cloud, and **AI & ML** fundamentals.
- Gained practical experience with cloud-based data pipelines, machine learning workflows, and real-world data engineering tasks.

PROJECTS

Hotel Management System, *(GUI-Based)*

- Developed a GUI-based application using Tkinter for hotel operations management
- Designed and developed a scalable desktop-based Hotel Management System using Python and Tkinter with modular architecture
- Built features like guest check-in, check-out, and real-time room status tracking

Household Services Management, *(Website)*

- Designed and developed a multi-page responsive website for managing household service requests.
- Created dedicated modules for booking services, handling complaints, and admin dashboard management
- Built structured navigation across pages including Home, Booking, Complaints, and Dashboard for seamless user experience

Blinkit Sales & Operations, *(Dashboard)*
• Collected and analyzed Blinkit sales dataset to evaluate revenue trends, product performance, and customer purchasing behavior.
• Performed data cleaning and preprocessing using Excel/SQL to ensure data accuracy and consistency.
• Developed an interactive dashboard using Power BI to track KPIs such as total sales, order volume, top-selling products, and city-wise performance.
• Conducted trend analysis to identify peak sales hours, high-demand categories, and revenue growth patterns.

Student Performance, *(Dashboard)*
- Collected and processed student academic data to evaluate performance metrics.
- Developed an interactive dashboard using Tableau/Power BI to visualize grades, attendance, and progress.
- Enabled educators to easily monitor student performance and identify areas needing improvement.
- Used data cleaning and analysis techniques to ensure accuracy and reliability of insights.

SKILLS

Data Analysis & Visualization
data cleaning, processing, and visualization using Excel and Power BI

Statistical Analysis
Strong foundation in descriptive statistics, hypothesis testing, regression analysis.

Problem Solving
Ability to identify trends, generate actionable insights, and support business decision-making.

Tools & Technologies
Familiar with Jupyter Notebook, Microsoft Excel (advanced), and basic knowledge of R.

Programming & Query Languages
Skilled in SQL for database querying and Python for data manipulation and analysis (Pandas, NumPy, Matplotlib).

Data Management
Experienced in handling large datasets, data wrangling, and ensuring data accuracy and integrity.

Communication
Effective in presenting complex data insights clearly to technical and non-technical stakeholders.

CERTIFICATES

Introduction to Internet of things - (NPTEL) (Issued: Jul-Oct 2023) |

SQL and Relational Databases 101 - (IBM) (Issued Jul 2025) |

Basic Computer & Tally (Issued Aug 2022) | **Data Analysis with python - (IBM)** (Issued Jul 2025) |

C Programming -(IT Meerut) (Issued Nov 2023)

EDUCATION

IIMT UNIVERSITY Meerut, *Bachelor of Technology* 2022 – Present
