linkedin.com/in/archi-jain-6273a1285 · behance.net/archiee26 · github.com/Archi-ee

Summary UI/UX-focused graphic designer with hands-on experience in **end-to-end product design, visual systems, and design thinking**. Proficient in Figma and Canva — skilled in wireframing, prototyping, and building component libraries. Strong communicator who delivers polished, user-centred visual experiences in cross-functional teams.

Education

Bachelor of Technology in Computer Science *Jul 2022 – Present*
Noida Institute of Engineering and Technology, Greater Noida, U.P **CGPA: 8.04**

12th Grade (Senior Secondary) *2021*
St. Francis Senior Secondary School, Bilaspur, C.G **95%**

10th Grade (Secondary) *2019*
St. Francis Senior Secondary School, Bilaspur, C.G **84%**

Projects

FinWise — Personal Finance Tracker App (UI/UX Case Study) *2025*

Designed a mobile-first finance app end-to-end in Figma across 5 screens: onboarding, home dashboard, budget tracker, spending analytics, and add transaction.

- Defined user flows and built **high-fidelity interactive prototypes** with screen-to-screen connections in Figma Prototype mode.
- Created a **reusable component library** — colour tokens, type scale, nav bar, category chips, and progress bars for a scalable design system.
- Applied **data visualisation principles** (donut charts, KPI cards, progress bars) to present financial data with minimal cognitive load.
- Conducted **UX audit of competitor apps** (Walnut, Money Manager) to inform navigation patterns and information hierarchy.

Tools: Figma, Canva *Case Study:* behance.net/archiee26 ↗

Madhav Sales Dashboard *Aug – Sep 2024*

Interactive Power BI dashboard visualising retail sales performance across regions, categories, and time periods with executive-ready layout design.

- Designed **dashboard layout and visual hierarchy** — ensuring clean, scannable data presentation for stakeholders.
- Used **slicers, drill-throughs, and conditional formatting** to enable dynamic filtering and surface key business insights.

Tools: Power BI, Figma, Excel, SQL *GitHub:* Madhav Sales Dashboard ↗

Work Experience

Graphic Designer Intern — GeeksforGeeks (GFG) *Nov 2025 – May 2026, Onsite*

- Designed **infographics, banners, UI components, and website creatives** in Figma for the GFG platform, reaching millions of learners.
- Translated complex technical content into **structured visual layouts** using clear hierarchy, consistent grids, and purposeful iconography.
- Maintained **brand consistency** across all digital assets — typography, colour tokens, spacing, and visual guidelines.
- Delivered high-quality design assets **on tight deadlines** across multiple concurrent campaigns with content and marketing teams.

Skills

UI / UX Design	Figma (Components, Auto-layout, Prototyping), Canva, Adobe XD, Design Systems
Visual Design	Typography, Colour Theory, Grid Layout, Iconography, Infographic Design
Data Viz	Power BI, Tableau, Excel, Dashboard Design
Web	HTML, CSS, JavaScript (Basics)
Analytics	SQL, Python, Google Sheets
AI Tools	Gemini, ChatGPT, Content Optimisation
Soft Skills	Design Thinking, User Empathy, Cross-functional Collaboration, Task Prioritisation

Languages & Interests

English	Full Professional Proficiency	**Hindi**	Native / Bilingual
French	Elementary Proficiency
