KUNWAR NAYAK

BUSINESS ANALYST | DATA ANALYST | MIS ANALYST | REPORTING ANALYST

☎ +91 8851211909 | New Delhi, India | kunwarnayak7@gmail.com | LinkedIn: https://www.linkedin.com/in/kunwar-nayak/

PROFESSIONAL SUMMARY

Analytical and business-focused professional with hands-on experience in data analysis, business reporting, MIS reporting, dashboard development, market research, and operations management. Proficient in SQL, Excel, Power BI, Tableau, and Python with experience transforming raw data into actionable business insights. Skilled in KPI monitoring, stakeholder reporting, process improvement, and data-driven decision-making. Experienced in managing teams, operational performance tracking, and business analytics across multiple industries.

TECHNICAL SKILLS

BUSINESS ANALYSIS	Requirements Gathering, BRD, FRD, SRDF, SRS, Agile & Waterfall Methodologies, Stakeholder Management, Process Analysis, Gap Analysis, Root Cause Analysis, Process Improvement, Business Reporting, KPI Management
DATA ANALYSIS	SQL, Advanced Excel, Python (Pandas, NumPy), Data Cleaning, Data Transformation, EDA, Data Validation
Reporting & Visualization	Power BI, Tableau, Dashboard Development, DAX, Power Query, Data Modelling, Data Storytelling, MIS Reporting
Operations & Performance Analytics	SLA Monitoring, Productivity Analysis, Performance Tracking, Operational KPI Monitoring, Quality Analysis
Databases	MySQL, SQL Server, Relational Databases, Views, Stored Queries, Joins, CTEs, Window Functions
Statistics & Analytics	Descriptive Statistics, Hypothesis Testing, Correlation Analysis, Regression Analysis
Machine Learning	Linear Regression, Logistic Regression, Decision Trees, Random Forest, Classification Techniques, Feature Engineering, Model Evaluation
AI & Modern Analytics	RAG, Semantic Search, Vector Databases, Prompt Engineering
AI & Automation	ChatGPT, Gemini, Midjourney — Research Synthesis, Insight Acceleration, Content Generation
Core Competencies	Problem Solving, Analytical Thinking, Stakeholder Management, Communication, Reporting & Dashboarding

WORK EXPERIENCE

KP Brand Activation, ***Decision Support analyst****, (Freelancer)* Dec, 2023 – July,2025

- Managed end-to-end execution of large-scale marketing campaigns and events for brands including Big FM and DCB Bank.
- Analysed event performance, campaign metrics, customer engagement, and operational data to measure effectiveness.
- Built dashboards and business reports to communicate campaign outcomes and ROI to clients.
- Supported management decisions through data-driven insights and performance reporting.
- Coordinated multiple stakeholders, vendors, and field teams to ensure successful campaign delivery.

Teleperformance, ***Operations Executive*** Oct, 2025 – Dec,2025

- Managed a team of 25 agents and monitored performance metrics to ensure service quality.
- Conducted chat audits and identified recurring customer issues to improve resolution efficiency.
- Maintained high customer satisfaction through timely and effective query handling.

CarDekho (Girnar Software Pvt. Ltd.), ***Operations Executive*** Aug, 2025 – Oct,2025

- Verified and validated vehicle buying and selling documentation, ensuring accuracy, completeness, and compliance with company processes.
- Managed case reviews and resolved documentation discrepancies to support smooth transaction processing and operational efficiency.
- Presented KPI dashboards and operational performance reports to the Operations Head, helping communicate business insights and key trends.

GLS Infracon Pvt. Ltd., *Market Research Analyst Intern* Sep, 2023 – Nov,2023

- Conducted competitor analysis and market research to support business decisions.
- Collected and analysed data to identify trends relevant to company projects.
- Prepared reports and Excel dashboards for performance tracking and visualization.
- Created KPI reports and performed time-based trend analysis.
- Compared company performance with competitors to identify opportunities for improvement.

A2Z Events, *MIS Executive,* *(Freelancer)* May, 2022 – Aug,2023

- Managed backend operations for marketing campaigns across multiple brands.
- Coordinated execution and ensured smooth workflow.
- Prepared performance reports and analyzed campaign results using data-driven insights.
- Created dashboards to present campaign performance, trends, and key metrics for decision-making.

PROJECTS

Sales Analysis Dashboard & KPI Monitoring Insights Power BI & Excel

Tools: *Power BI, Excel, DAX, Power Query, Data Visualization*

- **Situation:** The diagnostic equipment business lacked a centralized system to monitor sales performance, deal conversion, and client revenue insights effectively.
- Built Power BI dashboards tracking revenue, client performance, and conversion KPIs.
- Analysed **1,620** clients and **154M+** revenue data to identify business trends.
- Developed DAX measures and drill-through reports for executive reporting.

Business Performance & KPI Analysis Dashboard Tableau

Tools: *Tableau, Data Visualization, KPI Monitoring, Interactive Dashboards*

- **Situation:** The business lacked a centralized view to monitor clothing sales performance, customer behavior, and regional trends effectively.
- Analysed **116K+** orders and built performance dashboards.
- Evaluated category, fulfilment, and sales channel performance.
- Identified customer and operational trends for decision-making.

Customer Churn Prediction Using Machine Learning Python & ML

Tools: *Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Decision Tree*

- **Situation:** The objective was to analyze telecom customer data and develop a predictive model to identify customers likely to churn, enabling businesses to improve customer retention and reduce revenue loss.
- Performed **EDA** and data preprocessing on telecom customer data.
- Built a **Decision Tree** model achieving **77.8%** accuracy.
- Identified key churn drivers and retention opportunities.

Content Strategy Analysis SQL

Tools*: SQL, CTEs, Window Functions, Aggregations, Joins, Data Analysis*

- **Situation**: Stakeholders needed content distribution insights to guide acquisition and regional programming decisions.
- Analysed **7,000+** records using SQL, **CTEs**, and **Window** Functions.
- Identified content distribution and growth trends.
- Delivered stakeholder-focused business insights.

EDUCATION

Diploma in Data Science & Artificial Intelligence 2026 – Present

Boston Institute of Analytics

Bachelor of Business Administration (BBA) 2021 – 2024

Vivekananda Institute of Professional Studies (VIPs), New Delhi
