FINANCIAL MODELING PROJECT

FMCG Financial Modeling Project

- Developed an end-to-end financial model covering revenue forecasting, cost modeling, working capital, and capital expenditure planning.
- Built Base, Best, and Worst Case scenarios using changes in selling price, cost inflation, and sales-volume growth to evaluate profitability under different operating conditions.
- Performed scenario and sensitivity analysis to assess margin pressure, profitability, and investment thresholds.
- Presented analytical outputs through structured dashboards to support interpretation of financial and commercial drivers.

PROFESSIONAL EXPERIENCE

Sales Consultant | Renault, Udupi | Feb 2026 - Jun 2026

- Managed customer requirements, product comparisons, pricing discussions, follow-ups, negotiation, booking coordination, and the prospect-to-retail sales process.
- Achieved a prospect-to-retail conversion rate of up to 50% in active months on assigned qualified prospects.
- Translated technical product information into practical customer benefits and supported senior consultants with customer explanations and test drives.
- Strengthened commercial awareness, client communication, needs analysis, objection handling, and responsibility for measurable sales outcomes.

Business Operations Intern | Ashel Enterprise | Sep 2024 - Mar 2025

- Supported inventory control and procurement activities, including operational documentation and coordination with vendors.
- Gained practical exposure to working-capital and cash-flow challenges and explored trade-receivable strategies and early-payment incentives as possible liquidity solutions.
- Developed understanding of business operations, procurement processes, internal controls, reporting, and commercial decision-making.

Financial Data Analyst Intern | 2 Star IT Solutions Pvt. Ltd. | Jun 2024 - Jul 2024

- Used Python, Pandas, and NumPy to analyze financial datasets for trend analysis and pattern recognition.
- Built a Flask application to visualize analytical outputs and present financial insights.
- Supported back-testing and validation of trading strategies using historical market data.

Sales Intern | Krush Beverages, Karnataka | Apr 2024 - May 2024

- Supported consultative selling, product positioning, customer engagement, and product-mix improvement.
- Developed practical exposure to customer preferences, competitive positioning, and sales performance.
