PROFESSIONAL SUMMARY

Computer Science engineering graduate with hands-on AWS experience (VPC, EC2, S3, Lambda, RDS, IAM) from live application deployment and a cloud enablement program. Combines development background with IT support experience — troubleshooting, Linux/Windows administration, and networking — to deliver reliable, customer-focused technical support. Seeking a Cloud Support Associate / Cloud Support Engineer role.

TECHNICAL SKILLS

- Cloud & AWS: EC2, S3, VPC, Lambda, RDS, IAM, CloudWatch, CNAME/SSL configuration, AWS deployment
- OS & Networking: Linux (Ubuntu), Windows OS, TCP/IP, DNS, DHCP, PowerShell, Remote Desktop Support
- Programming & Web: Python, Django, Node.js, REST APIs, Tailwind CSS, Bootstrap
- Database & Tools: MongoDB, GitHub, Postman

CERTIFICATIONS & CLOUD TRAINING

- Student Enablement Program on Cloud Computing (AWS) — PayPal| ICT Academy|
- Basics of Python | Udemy|

WORK EXPERIENCE

Desktop Support Engineer | *E-Refurb Integrated Technologies Pvt Ltd* **Feb 2026 – Jul 31 2026**

- Deliver L1 technical support for desktops, laptops, printers, and peripherals, resolving hardware/software issues under SLA timelines
- Administer Windows OS installations, application deployments, and system updates across end-user environments
- Performed remote troubleshooting and incident resolution while following established customer support workflows and procedures.
- Execute system upgrades, backup, and recovery procedures; document issues and resolutions for knowledge-base consistency

Software Developer Intern | *Instawings India Pvt Ltd* **Jul 2024 – Dec 2024**

- Configured AWS deployment infrastructure including CNAME record setup and SSL installation for secure HTTPS access
- Built and maintained backend services and REST APIs using Python and Django, handling business logic and data flow
- Converted UI/UX wireframes into responsive components using HTML, Tailwind CSS, Bootstrap, and JavaScript
- Collaborated using Git/GitHub in an agile workflow, maintaining clean, version-controlled repositories

PROJECTS

Credit Card Fraud Detection — ANOVA vs. PCA (ML) | Link **Dec 2023 – Jan 2024**

- Built a Python-based fraud detection system comparing ANOVA and PCA feature-selection across predictive models

Quiz Application Sep 2023 – Oct 2023 | Link

- Developed a responsive quiz platform with quiz management, multiple question formats, and intuitive UI

EDUCATION

Bachelor of Engineering, Computer Science | CGPA: 7.28 — Moodlakatte Institute of Technology, Kundapura, Karnataka | **Jan 2020 – May 2024**

Pre-University College (PCMCS) | 75.16% — Y.T.S.S PU College, Yellapura, Karnataka | **Nov 2018 – May 2020**
