Professional Summary

Computer Science undergraduate and Software Development Intern with hands-on experience in full-stack development (MERN stack), RESTful API design, and AI/ML integration. Skilled in building scalable, production-ready web applications with a strong foundation in Data Structures and Algorithms (100+ problems solved). Seeking an entry-level Software Development Engineer role.

Technical Skills

- **Languages:** C, C++, Python, Java, JavaScript
- **Web Technologies:** HTML5, CSS3, React.js, Node.js, Next.js, Express.js, REST APIs, RESTful Web Services
- **Databases:** MySQL, MongoDB
- **Tools & Platforms:** Git, GitHub, Postman, VS Code
- **Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming, Full-Stack Development, API Integration, Agile/Scrum

Experience

Software Development Intern Jul 2026 – Present
Avora Ventures *Remote*

- Contributing to full-stack development for Avora Ventures' AI data-operations platform, supporting data generation, annotation, labeling, and quality-assurance workflows.
- Developing and integrating RESTful APIs and backend services using Node.js and Express.js for scalable AI/ML data-processing pipelines.
- Collaborating with cross-functional teams using the MERN stack to build production-ready features and improve data validation accuracy.

Projects

Interior AI – AI-Powered Interior Design Platform 2025
Next.js, MongoDB, Hugging Face, Clerk

- Built a full-stack AI-powered web application using Next.js generating personalized interior design recommendations from user prompts.
- Integrated Hugging Face ML models for content generation and implemented secure authentication using Clerk.
- Designed scalable REST API routes and optimized MongoDB schema, improving data handling efficiency and performance.

HOWOLD.AI – Age & Gender Prediction Application 2024
Streamlit, Keras, TensorFlow, OpenCV, Pillow

- Developed a machine learning web application predicting age and gender from uploaded images or live camera feed.
- Implemented OpenCV Haar Cascade for face detection and a CNN-based Keras/TensorFlow model for predictions.
- Deployed an interactive interface using Streamlit for real-time inference and testing.

Education

Quantum University Roorkee, Uttarakhand
Bachelor of Technology in Computer Science & Engineering *Aug 2023 – Present*

- CGPA: 8.02 / 10

+2 High School Bengabad, Giridih, Jharkhand
Higher Secondary Education (Science – IT/ITES) *2022*

- Percentage: 83%

Certifications

- **Full Stack Development Virtual Internship Certification** – CodeAlpha *Oct 2025 – Nov 2025*
- **AI Foundation – Skill Competency Certificate** (NSQF Level 4.5) – Skill India / NCVET *Jun 2026*
- **JavaScript Fundamentals** – GreatStack *Jun 2026*
- **React Hooks Crash Course** – GreatStack *Jun 2026*

Achievements & Activities

- Solved 100+ Data Structures and Algorithms problems across LeetCode and other competitive coding platforms, strengthening problem-solving and analytical skills.
- Core Team Member, CodeX Club, Quantum University – led technical initiatives, organized coding workshops, and coordinated peer learning programs.
- Organized the inter-university Hack India hackathon, managing planning, execution, and team coordination for participants across universities.
- Served on the Organizing Committee for Q-Hackathon 2026, a 36-hour inter-university innovation sprint at Quantum University.

Additional Information

- **Languages:** English (Professional Proficiency), Hindi (Native)
- **Interests:** Competitive Programming, Scalable Web Development, Artificial Intelligence, Cricket
