Summary

Aspiring Data Scientist with a strong technical foundation in building intelligent AI solutions, predictive models, and data-driven applications. Experienced in developing NLP workflows, computer vision solutions, and complex ETL processes using Python and its ecosystem, including Pandas, NumPy, and Seaborn. Proficient in working with SQL and NoSQL databases to streamline data ingestion, processing, and analysis. Also possess hands-on knowledge of web development technologies including HTML, CSS, and JavaScript for building interactive and user-friendly applications. Passionate about developing scalable AI and data-driven solutions that solve real-world operational challenges.

Skills

- **Programming:** Python, SQL
- **Data Analytics:** MS Excel (Advanced), Pandas, NumPy
- **ML / AI:** Scikit-learn, TensorFlow/Keras, Qiskit, TF-IDF, TinyLlama (LLM Integration), Prompt Engineering
- **Web Development:** HTML, CSS, JavaScript
- **Tools & Cloud:** Git, GitHub, Jupyter Notebook, Power BI, Google Colab, FastAPI, Streamlit
- **Professional:** Team Leadership, Deadline Management, Cross-functional Collaboration, Technical Communication
- **Personal:** Quick Learner, Adaptive, Dedicated

Internship Experience

- Currently pursuing an Accenture-sponsored Internship cum Placement Program in Data Science, and Artificial Intelligence (AI).

Data Analytics Intern | Novi Tech | 1 Months | 2026 | Remote

- Developed interactive Power BI and Tableau dashboards and managed SQL and MongoDB databases to streamline data retrieval, structured storage, and visualization, generating actionable business insights.
- Built Python-based data pipelines and implemented Machine Learning and Deep Learning models for data preprocessing, predictive forecasting, trend analysis, and data-driven strategic reporting.

Certification

- **Artificial Intelligence (AI) Certification** — IBM SkillsBuild
- **Data Analytics Internship Certification** — Novi Tech | 2026

Education

- Maharishi Dayanand University |B.Tech in Computer Science | May 2022 – June 2026
- Class 12 | NIOS Board |May 2018 – June 2019

Project

Perfume hub

•Developed a fully responsive multi-page perfume e-commerce website with dedicated sections for Perfume, Deo, Body Spray, and Attar using HTML, CSS, and JavaScript.

• Implemented product listing and detail pages with descriptions, pricing, visuals, and interactive features using DOM manipulation and client-side JavaScript.

•Applied clean UI/UX principles to ensure a user-friendly experience across desktop and mobile devices.

Flipkart Clone – E-commerce Website

•Developed a responsive Flipkart-inspired e-commerce website with multiple product categories using HTML, CSS, and JavaScript.

•Implemented dynamic cart functionality, real-time cart updates, and a simulated checkout process using JavaScript.

•Applied mobile-first design principles to ensure a responsive and user-friendly experience across devices.
